Report on “Quantitative Aptitude”

A lecture on **Quantitative Aptitude** was organized for the students of TYBBA(CA) on 24th January 2018 at PIMSE building by Ms. ReshmaPatil, faculty of BBA (CA).

Quantitative aptitude shows one's ability to comprehend and solve problems. As the tests are time bound, they also test the logical thinking of the candidates and their ability to reason and make effective decisions quickly under pressure. Reasoning is one ability that is unique to human beings.

In most of the exam, quantitative aptitude test is conducted as a part of the written exam, which is usually the very first round of the selection procedure. Quantitative Aptitude test basically involves mathematical questions. In these questions, speed of the candidate matters more than his/her knowledge and this needs quantitative aptitude tricks. Quantitative Aptitude paper is an essential part of almost all competitive exams.

Not everyone is good with numbers. Numbers play a crucial role in businesses, commerce and a lot of jobs in general. Various functions and avenues of jobs require number crunching which results in quantitative aptitude's importance in exams.

An objective of organizing lecture on quantitative aptitude was preparing students to appear for any competitive exam or for job interview. Student struggles with challenges every minute. A major part of his/ her work requires him/ her to find solutions to deal with the problems. Not everyone can do this effectively. A person with quantitative aptitude will be better equipped to handle the problems. The person will possess a knack for looking for solutions for the problems. Therefore, quantitative aptitude is tested in various competitive exams.

Total 39 students attended this event. Students' were participated very enthusiastically.

Expert Guidance on MCA ENTERANCE EXAM
16th February 2018

Organized an Industrial Experts guidance on “MCA ENTERANCE EXAM” for the students of TY BBA(CA) by Ms. Swapnali Patil and Ms. Kavita Patil from JSPM, Pune on 16th February 2018 at M6 Coordinated by Ms. ShabanaMulla.

Ms. Swapnali Patil and Ms. Kavita Patil guiding the crowd (16/02/2018)

It takes a lot of hard work to prepare for entrance exams but along with hard work, knowing some tips and tricks can only benefit students for preparation.

Ms. Swapnali Patil and Ms. Kavita Patil, Faculties from

JSPM Handewadi, guided our students of TYBBA (CA) about how to crack MCA entrance.

They cover the points starting from how to fill exam form, syllabus, Marks distribution, how to prepare for exam.

Also they refer some competitive exam Books for preparation.

Remember, cracking an entrance exam is not about hard work but about doing your best in the examination hall. MCA Entrance tests are unique in the sense that the

Ms. Swapnali Patil and Ms. Kavita Patil solving the queries of students (16/02/2018)

attributes required to clear it are more than to meet the eye. Not only is knowledge important, a capacity to stay cool under time constraint is also required. Intelligence is no doubt crucial but a knack for basic common sense plays an equally important role. We will try to explain these factors and their role in a successful attempt at the MCA Entrance examinations.

Participation:-

The event witnessed a huge participation from various colleges. Institute was elated to view such a great number attending the event. It was made sure that all the students get a fair chance to get interviewed from the company present at the fair.

The event was mesmerized to see the enthusiasm of the participants and the support reflected by the delegates. The function started with the prayer as per the tradition of the institute; following an address by respected director.

The institute was ecstatic to host the industry personnel and the same was shown through a warm and hearty welcome given by the faculties.
