## Report of Certificate Course in Communication Skills II Academic year (2023-24)

#### **Course Overview:**

The Communication Skills course for the year 2023-24 aimed to enhance participants' overall communication abilities, focusing on both verbal and written aspects. The program emphasized practical application, allowing participants to develop essential communication skills through interactive exercises and simulations.

#### Aims and Objectives:

- 1. **Communication Skills**: The course aimed to improve verbal and written communication, emphasizing pronunciation, fluency, grammar, and clarity.
- 2. **Interpersonal and Presentation Abilities:** The program sought to develop effective interpersonal skills, impactful presentation techniques, and proficiency in non-verbal communication.

#### Methodology:

The course was conducted in a language laboratory, leveraging advanced language software to provide an interactive and immersive learning experience. Participants engaged in various practical exercises and real-time simulations to enhance their communication skills.

#### **Course Outcomes:**

Upon completion of the course, participants demonstrated significant improvements in their verbal and written communication skills, including better pronunciation, fluency, grammar, and clarity. Additionally, they exhibited stronger interpersonal and presentation abilities, effectively utilizing both verbal and non-verbal communication techniques.

## Level 1 Grammar Simple present tense

Technology Worksheet

Name:

Date: 31-10-2023

Write the present tense form of the verb in the gap in the sentence

| 1. to phone | Gina            | her sister every week.             |
|-------------|-----------------|------------------------------------|
| 2. to use   | Sarah           | Gina's computer every weekend.     |
| 3. to visit | Sarah           | Gina every weekend.                |
| 4. to talk  | Sarah           | to her friends every night.        |
| 5. to have  | Angela and Tony | a wonderful holiday every year.    |
| 6. to read  | Sarah           | her emails every day,              |
| 7. to eat   | Gina and Sarah  | fruit for breakfast every weekend. |
| 8. to write | Sarah           | emails to her friends every night. |
| 9. to drink | Gina            | a cup of coffee every evening.     |
| 10. to go   | Sarah           | to Gina's house every weekend.     |

## Level 1 Grammar Simple past tense

Sports Worksheet

Name:

Date: 21-03-2023

Write the past tense form of the verb in the gap in the sentence

| 1. to go       | Mark                   | to school yesterday.                |
|----------------|------------------------|-------------------------------------|
| 2. to use      | Mark                   | his computer every day last week.   |
| 3. to swim     | Steven                 | last week.                          |
| 4. to work     | He                     | on his computer yesterday evening.  |
| 5. to play     | Steven and his friends | football last Friday.               |
| 6. to fix      | He                     | his computer last night.            |
| 7. to exercise | Steven                 | last Wednesday.                     |
| 8. to drink    | Steven                 | milk yesterday.                     |
| 9. to watch    | Mark and Sharon        | the tennis on TV last Saturday.     |
| 10. to speak   | Steven                 | to the football coach last weekend. |

### Issues in Level 1 Grammar English Present Continuous tense

Fame Worksheet

Name:

Date: 21-03-2023

Write the present continuous form of the verb in the gap in the sentence

| 1. to visit  | Many people Elvis Presley's house.              |
|--------------|-------------------------------------------------|
| 2. to speak  | Chris and Judy are in a café. They about Elvis. |
| 3. to sing   | He some of Elvis Presley's songs.               |
| 4. to watch  | Sam a program about Elvis on TV.                |
| 5. to spend  | She a lot of money on CDs today.                |
| 6. to wear   | He expensive clothes.                           |
| 7. to buy    | Ellie is in a bookshop.                         |
|              | She a book about Elvis Presley.                 |
| 8. to listen | Lynne to some of Elvis Presley's songs.         |
| 9. to dance  | Chris is at a party. She                        |
| 10. to read  | Maria a book about Elvis Presley.               |

# Department Of Mathematics Report of Certificate course on "C Programming" 2023-24

It's a matter of great pleasure that department of mathematics had organized a one month certification course on "C **Programming**" for T.Y.B.Sc students. Mrs. Shaheen Khan was the coordinator.

The Certificate course in C programming was introduced to train the students, the basic concepts of the C-programming language. This course involves a lab component which is designed to give the student hands-on experience with the concepts. We aim to provide exposure to problem-solving through programming. It is designed for the students who have no knowledge of computer language. Lectures are conducted apart from the regular time table. Manual is provided to the students for hands on practice. Students get equipped with skills in C programming language.

The course commenced from 20<sup>th</sup> July 2023 to 11<sup>th</sup> August 2023. 14 students enrolled in the said course. Qualified faculties conducted the theory and technical sessions. It was practical based course which enabled the students to solve the mathematical problems. They got familiar with C Programming. For the convenience of the students a manual (content of C Programming program) was given to every student.

They completed the course successfully. An examination was conducted after the course. Qualified students were awarded with certificate.

Mrs. Munzarin Sajjan explaining C programming to the students.

# Department of Mathematics NOTICE

Date: 14/07/2023

All the students of SY/TYBSe are hereby informed that, the Department of Mathematics is going to conduct a 30 hours "Certificate course in C Programming" of 03 credit points between 20th July 2023 to 11th August 2023 commencing from 20th July 2023.

All the interested students are advised to enrol their name to the coordinator Mrs. Shaheen Khan on or before 19th July 2023.

# Department of Mathematics Certificate course in C Programming Academic Year 2023-24

Time: 02 hours Max marks: 35

Instructions: 1) All questions are compulsory.

2) Figures to the right indicate full marks.

#### Q1. Attempt any two:

[20]

- 1. Write a C program to find ged of two numbers using function.
- 2. Write a C program to implement multiplication of two matrices.
- 3. Write a C program to generate a multiplication table for a number entered by user.
- 4. Write a C program using function to check if the number entered is palindrome or not?

### Q2. Attempt any three:

[15]

- Write a C program to find factorial of a number.
- 2. Write a C program to check if the number entered by user is even or odd.
- 3. Write a C program to find area of a triangle.
- 4. Write a C program to generate Fibonacci sequence (user must enter the number of terms)

## Department of Mathematics Certificate course in C Programming Academic Year 2023-24 Assessment Criteria

The assessment criteria for the examination held after course completion is as follows:

| S.No. | Mode of assessment    | Marks |
|-------|-----------------------|-------|
| 1     | Practical examination | 35    |
| 2     | Assignments           | 10    |
| 3     | Viva                  | 05    |
|       | Total                 | 50    |

| the activity                          |                                                                                                                                                                                                                                                                                                                                                                                |
| Objective for conducting the activity | The Certificate course is introduced to train the students, the basic concepts of the C-programming language. This course involves a lab component which is designed to give the student hands-on experience with the concepts. We aim to provide exposure to problem-solving through programming. It is designed for the students who have no knowledge of computer language. |
| Methodology                           | Lectures are conducted apart from the regular time table. Manual is provided to the students for hands on practice.                                                                                                                                                                                                                                                            |
| Outcome                               | Students get equipped with skills in Machine Learning concepts                                                                                                                                                                                                                                                                                                                 |

# Department Of Mathematics Report of Certificate course on "Machine Learning" 2023-24

It's a matter of great pleasure that department of mathematics had organized a one month certification course on "Machine Learning" for T.Y.B.Sc, SYBSc/CS students. Mrs. Shaheen Khan was the coordinator.

The Certificate course in Machine Learning was introduced to train the students, the basic concepts of the Machine Learning. This course involves a lab component which is designed to give the student hands-on experience with the concepts. We aim to provide exposure to problem-solving through programming. It is designed for the students who have no knowledge of computer language. Lectures are conducted apart from the regular time table. Manual is provided to the students for hands on practice.

The course commenced from 10<sup>th</sup> Jan 2024 to 17<sup>th</sup> Feb 2024. 35 students enrolled in the said course. It was practical based course which enabled the students to solve the mathematical problems. For the convenience of the students a manual was given to every student.

They completed the course successfully. An examination was conducted after the course. Qualified students were awarded with certificate.

# Department of Mathematics NOTICE

Date: 05/01/2024

All the students of SY/TYBSc and SYBSc (CS) are hereby informed that, the Department of Mathematics is going to conduct a 30 hours "Certificate course in Machine Learning" of 03 credit points commencing from 8th Jan, 2024. This course emphasis on "Application of Mathematics in Machine learning". The main goal is to create algorithm that can learn from data and generate prediction on mathematical foundations.

All the interested students are advised to enrol their name to the co-ordinator Mrs. Shaheen Khan on or before 6th Jan, 2024.

# **Department of Mathematics Certificate Course in Machine Learning Course Contents**

**Unit 1: Introduction** [05 Lectures]

- 1.1 Introduction to Machine Learning
- 1.2 What is machine learning?
- 1.3 What problems can machine learning solve?
- 1.4 Types of machine learning methods
- 1.5 Terminology

#### **Unit 2: Understanding ML related Python Packages**

[10 Lectures]

- 2.1 Numpy Basics: Arrays and Vectorized Computation
- 2.2 Data Processing Using Arrays
- 2.3 Getting Started with Pandas
- 2.4 Introduction to pandas Data Structures
- 2.5 Visualizing data in Python using Matplotlib, Pandas and Seaborn

#### **Unit 3: End to End Machine Learning Project**

[10 Lectures]

- 3.1 Get the data
- 3.2 Discover & visualize the data to gain insights
- 3.3 Preparing the model

#### **Unit 4: Assignments**

[05 Lectures]

#### Assignment 1

Create a numpy array with following columns: hindi, english, science, math and commerce with data type int32.

- i. Insert at least 10 rows in the above array.
- ii. Display size and shape of the array.
- iii. Print sum of each column.

- iv. Print maximum element from each column.
- v. Print sum of 1, 4, 5 row.

#### Assignment 2

Write a Pandas program to create and display a DataFrame from a specified dictionary data which has the index labels. Sample Python dictionary data and list labels:

- 1. exam\_data = {'name': ['Ankita', 'Dia', 'Kapil', 'Jayesh', 'Esha', 'Mayank', Ravi, 'Lata', 'Kamal', 'Jatin'],
- 2. 'score': [12.5, 9, 16.5, 15, 9, 20, 14.5, 17.5, 8, 19],
- 3. 'attempts': [1, 3, 2, 3, 2, 3, 1, 1, 2, 1],
- 4. 'qualify':{ ['yes', 'no', 'yes', 'no', 'no', 'yes', 'yes', 'no', 'no', 'yes']}

#### Assignment 3

Create a new data frame with three columns – Product\_Name, Cost, Sales.

- 1. Add 10 values in data frame.
- 2. Add a new column named quantity with 10 values.
- 3. Add a new column named: Profit and total\_profit and fill values.
- 4. Insert a new column named location after Product\_Name column with 10 cities.

# Department of Mathematics **Examination in Certificate Course in Machine Learning**

#### Q1. Attempt any three of the following:

[15]

- 1. Plot the function  $z = \sin(x) + \cos(x)i 5 < x, y < 5$
- 2. How Do You Handle Missing or Corrupted Data in a Dataset?
- 3. State the difference between Training set and Test set
- 4. Plot the graph of  $f(x) = e^x \sin x$  in  $[-5\pi, 5\pi]$  with blue point line with upward pointing triangle
- 5. How Do You Design an Email Spam Filter?

#### Q2. Attempt any one of the following:

[20]

- 1. Implement a Covid 19 Death Prediction model using machine learning
- 2. Implement Online Payments Fraud Detection with Machine Learning

#### **ACTIVITY REPORT**

Academic Year: 2023-24

#### **Report on Foreign Language Course (French)**

#### Introduction

The French language course for the First Year BBA (Bachelor of Business Administration) students of Poona College was held from 1st January 2024 to 30th January 2024, over a span of 30 hours. The course was designed to introduce students to basic French language skills, focusing on communication in both professional and personal contexts. The course was conducted by Mangala Helkar, with Dr. Deepika Kininge serving as the course coordinator. The classes were held in the PIMSE Building, M4 Classroom, starting at 10:00 AM, with a total of 88 students enrolled in the program. This initiative was undertaken to enhance students' global competency, enabling them to communicate effectively in French—a language spoken by millions worldwide and highly valuable in international business, diplomacy, and cultural exchange.

#### **Objectives of the Course**

The primary objectives of the French language course were designed to:

- 1. **Introduce basic French communication skills** for students to engage in day-to-day conversations, both in personal and professional scenarios.
- 2. Familiarize students with French business terminology and its application in corporate environments, focusing on relevant sectors like finance, marketing, and management.
- 3. **Develop an understanding of French culture and etiquette**, equipping students to work effectively in multicultural environments.
- 4. **Enhance writing skills for business correspondence**, including emails, memos, and simple reports in French.
- 5. **Prepare students for French-language business negotiations**, helping them understand the language dynamics in formal business settings.

#### **Structure of the Course**

The French language course was structured to ensure comprehensive learning within the 30-hour period, covering essential areas of language acquisition, business communication, and cultural understanding. The course structure was

#### as follows:

- 1. Week 1 (1st January to 7th January):
  - Introduction to the French language: Basics of pronunciation, alphabets, and greetings.
  - Essential vocabulary and phrases for introductions, greetings, and small talk.
  - o **Introduction to French grammar**: Basic sentence structure, subject-verb agreement, gender, and number.
  - o **Cultural introduction**: Understanding the French culture, customs, and formal vs. informal speech.

#### 2. Week 2 (8th January to 14th January):

- **French business vocabulary**: Key terms used in business contexts like meetings, finance, marketing, and management.
- **Role-playing exercises**: Simulating business scenarios like client meetings, presentations, and networking.
- Focus on business communication: Writing emails, creating basic reports, and addressing clients in French.

### 3. Week 3 (15th January to 21st January):

- Cross-cultural communication: Understanding cultural differences in communication, particularly in French-speaking countries.
- o Intermediate grammar and conversation: Introduction to more complex sentence structures, verb tenses (present, past, future), and indirect speech.
- Practical exercises: Mock business presentations in French, developing public speaking skills.

#### 4. Week 4 (22nd January to 30th January):

- Business negotiations in French: Key phrases and strategies used in formal business discussions.
- Advanced conversation practice: Conversational drills and mock business meetings.
- Course review and assessment: Evaluation through written assignments and oral presentations.

#### **Implementation**

The course was conducted using a blend of **interactive teaching methods** and **practical exercises**, ensuring that the students not only learned theoretical aspects of the French language but also applied them in real-world contexts. The teaching methods included:

- **Lectures and Discussions**: Classroom sessions covered grammar rules, vocabulary building, and cultural insights.
- **Group Activities**: Students participated in role-plays, group discussions, and scenario-based exercises to enhance their practical language skills.

- **Interactive Learning**: Use of multimedia resources like audio recordings, videos, and language apps to improve listening and speaking skills.
- **Assessments**: Regular quizzes, written assignments, and oral presentations to gauge progress.

Dr. Deepika Kininge coordinated the administrative aspects of the course, ensuring smooth execution and addressing any student queries. Mangala Helkar, the course instructor, focused on delivering high-quality lessons, engaging students with practical language use, and providing individual feedback to enhance learning outcomes.

#### **Outcomes of the Course**

Upon completion of the course, the students were expected to have achieved the following outcomes:

- 1. **Basic Conversational Skills**: Students demonstrated the ability to engage in basic French conversations, including greetings, introductions, and discussing personal and professional topics.
- 2. **Business French Vocabulary**: Students gained familiarity with essential French vocabulary used in business settings, including terms related to finance, marketing, and corporate communications.
- 3. Improved Writing and Communication Skills: Students were able to compose simple yet professional emails, memos, and reports in French.
- 4. **Cultural Competence**: Students developed a better understanding of French cultural norms, etiquette, and communication styles, which would aid them in global business interactions.
- 5. Confidence in Business Negotiations: Students learned key phrases and strategies for engaging in formal business negotiations in French, improving their ability to interact confidently in French-speaking environments.

#### **Conclusion**

The **French language course for FY BBA students** at Poona College proved to be a highly beneficial program, offering students the opportunity to gain essential language skills that are increasingly valuable in today's global business world. With a total of **30 hours of instruction**, the course successfully met its objectives by equipping students with basic French communication skills, business terminology, and a cultural understanding of French-speaking nations.

Under the able coordination of **Dr. Deepika Kininge** and the diligent instruction by **Mangala Helkar**, the course fostered an engaging learning environment for the **88 students** enrolled. The students gained practical skills that will serve them well in their academic pursuits and future business careers, helping them become more competitive in an interconnected, multilingual

#### **Detail Report**

# A Report on Advance Stock Market Online Addon Course from 11th of November 2023 to 20th of November 2023

An Advance Stock Market Online Addon Course was conducted from 11th of November 2023 to 20th of November 2023 by CMA Sayyed Anwar Inamdar (ORA Stock Market) and course was coordinated by Ms. Mubina Shaikh and total 391 Students attend all meeting on Zoom. After Course Completion Exam was conducted on 12th December 2023 by online mode and total 391 Students attend this exam.

Introduction: Stock markets provide a secure and regulated environment where market participants can transact in shares and other eligible financial instruments with confidence, with zero to low operational risk.

Operating under the defined rules as stated by the regulator, the stock markets act as primary markets and secondary markets.6 As a primary market, the stock market allows companies to issue and sell their shares to the public for the first time through the process of an initial public offering (IPO). This activity helps companies raise necessary capital from investor. Index of stock market which taught to students Stock market Index 1) Shares / Debentures / Bonds 2) Listed companies and unlisted co. 3) Interest and dividend 4) Bonus share, right share 5) Stock markets 6) NSE and BSE 7) Indexes (Sensex and nifty, etc.

Outcomes of Stock market Course. • Students learned how stock market work • Students opened their demat accounts • Students learned Fundamentals of stock market • Students leaned various case studies of stock market • Students now able to find out demand and supply zone of stock using candle chart.
