## ACTIVITY REPORT

Academic Year: 2023-24

BASIC DETAILS			
<b>Title of the Activity: Production of saplings of medicinal plants: <i>Moringa</i></b>			
<b>Date</b>	<b>Faculty</b>	<b>Department/ Committee</b>	<b>Coordinator Name &amp; Phone no.</b>
28/08/2023	Science	Botany	Dr. Aafreen A. Ahmed; 9766209786
<b>Time</b>	<b>Venue</b>	<b>Activity for Class/Group</b>	<b>Nature: Co-curricular/Extra- curricular/Extension/Outreach</b>
12noon to 2.30pm	College campus	F.Y. & S.Y. B.Sc.	Co-curricular

BRIEF INFORMATION OF THE ACTIVITY	
<b>Objectives</b>	To impart hands on training for germination of medicinal plants and production of their saplings.
<b>Outcome</b>	Students prepared pot mixture and sowed seeds for production of saplings.
<b>No. of Participants</b>	51

DOCUMENTS ATTACHED:		
<i>Note: Please attach original documents. Photocopy (Xerox) will not be accepted.</i>		
<b>Detailed Report</b>	<b>Geotagged Photos with Caption</b>	<b>Notice/Brochure</b>
<b>Attendance</b>	Letters if any (Invitation/Thanks)	Any other relevant Documents (Resource Person CV/Feedback)

## DETAILED REPORT

### **Production of saplings of medicinal plants: *Moringa***

**28/08/2023:** With an inclination of man towards herbal medicines, there is a need to cultivate medicinal plants and provide raw material for drug production. With this in mind and an objective to train students in cultivation practices of medicinal plants, the Department of Botany, AKI's Poona College of Arts, Science and Commerce initiated "Project Moringa".

The Department took an initiative to cultivate medicinal plants such as *Moringa*, on a piece of land at Bopgaon, donated by the Management for Skill Development among students of Botany. The co-ordinator Dr. Aafreen A. Ahmed briefed F.Y. and S.Y. B.Sc. students on the first step in cultivation practices of *Moringa* i.e. production of saplings. She explained the following steps and made students do it in person:

1. Preparation of potting mixture using compost and coco peat
2. Preparation of trays: filling trays with potting mixture
3. Sowing seeds: one seed per well sown by pressing it a few cms in potting mixture.
4. Irrigation: twice a week.

Students carried out these steps and successfully prepared 36 seedling trays!

After a month, the seeds germinated to well established saplings, ready to be transplanted in soil.

In all, 51 students volunteered to work in the production of *Moringa* saplings. This was possible under the able guidance of Principal Dr. Aftab Anwar Shaikh and Vice Principal (Science), Dr. Iqbal Shaikh and supervision of staff Dr. Aafreen Ahmed and Miss Nabila Shaikh.

## Department of Botany

### NOTICE

Date: 25/08/2023

An opportunity for experiential learning is being provided to students of F.Y. and S.Y. B.Sc (Botany) students through: **"Production of saplings of medicinal plants and their cultivation"**. Interested students should enroll their names with Dr. Aafreen A. Ahmed, Department of Botany, by 26<sup>th</sup> August, 2023.

Dr. Aafreen A. Ahmed  
Faculty in charge

Dr. Shafik Shaikh

## **Report on CAD (Computer Aided Design) Training Program**

Department of Computer Science in association with Training and Placement cell and IQAC of Y & M AKI's Poona College of Arts, Science and Commerce, orchestrated a comprehensive 40-hour course on **CAD (Computer-Aided Design) Training Program** for the students of T.Y.BSc(CS). The program was organised under the able guidance of Principal Dr. Aftab Anwer Shaikh, Vice-Principle Dr. Iqbal Shaikh, Head of Computer Science and BBA(CA) Dr. Shabana Shaikh, coordinator of Placement Cell Miss. Zareen Sharif. Ms. Shaheda Ansari, Assistant Professor Department of Computer Science, led the coordination of the event.

Mr. Sujit Joshi was the resource person. Mr. Sujit Joshi has more than 25 years of experience in academics and CAD. The course garnered enthusiastic participation, with over 25 students enrolling. The first session took place on August 29<sup>th</sup> 2023, and the concluding session was scheduled for January 9<sup>th</sup> 2024. The resource person taught the two mostly used graphic design tools namely Adobe Illustrator and Adobe Photoshop.

The session was started with felicitation of the resource person Mr. Sujit Joshi by Dr. Shabana Shaikh. Ms. Shaheda Ansari delivered the welcome address and introduction of the resource person Mr. Sujit Joshi. The resource person started the session by introducing the softwares and later on explained the uses and importance of both the applications in the designing world. Expert explained in detail about the use of CAD and designing in different fields worldwide and career opportunities. The expert discussed Computer-aided design is one of the many tools used by engineers and designers and is used in many ways depending on the profession of the user and the type of software. The software which is used worldwide is Adobe Illustrator and

Camp, Pune – 411001 (Maharashtra)  
**(AFFILIATED TO SAVITRIBAI PHULE PUNE UNIVERSITY)**

Adobe Photoshop. The expert helped the students in downloading both the software's in their respective system's and explained the detailed information about the software and its working.

He introduced Adobe illustrator to the students and also made them familiar with all the tools and techniques used in the application. He gave detailed notes of each tool and displayed their working practically. The speaker created various designs using different shapes and symbols and also encouraged the students to try creating their own designs. The expert taught the students to work from scratch and create high definition vector images by using different tools. He also asked the students to select any one cartoon character and trace it exactly the same using pen tool, which is the most important tool used in designing. The students showed huge interest in tracing out the characters. The expert also practically showed the students how trace the character perfectly and also helped the students to resolve their queries. He also asked the students to select any gradient vector image and trace it using pen tool and fill the color using gradient and mesh tool. He further showed the students some shortcuts that can make the designing work easier and efficient. He also stated that this application is used in various ways for designing pamphlets, posters, cartoon characters etc.

After completion of the first application the expert started with Adobe Photoshop. He gave detailed notes of the tools and showed their use practically. The expert asked the students to make 3 collages using different techniques and tools available in Photoshop. The expert also gave the students some edited images and asked the students to recreate it. He also showed the students how to edit and enhance graphic images by using Adobe Photoshop. In the last session, the expert took the revision for both the applications. Later, the expert graciously invited and welcomed queries, fostering an open and interactive environment. The course proved to be highly informative, and all the students expressed their satisfaction in being a part of it.

## NOTICE

### Department of Computer Science & BBA (CA) in association with Training and Placement Cell and IQAC

Department of Computer Science & BBA (CA) in association with Training and Placement Cell and IQAC is organizing "Computer Aided Designing (CAD) Training Program".

CAD course will give the students a competitive edge in the job market. They will be equipped with the necessary skills to design and draft using various softwares, making them attractive candidates for employers.

All the students of Computer Science & BBA (CA) are advised to be present in the Conference Hall on 29<sup>th</sup> August 2023 Tuesday, at 11.30 am.

**Dr. Shabana Shaikh**

**HOD Computer Science & BBA - CA**

**Prof. Dr. Aftab Anwar Shaikh**

**Principal**

Principal Office,  
Poona College of Arts, Science & Commerce,  
Camp, Pune-411001

## **GRAPHIC DESIGN COURSE SYLLABUS**

- Computer Studies
- Generic Skills
- Basic Information about Software [Bitmap vs Vector]
- Introduction to Software [Tools and layers]
- Graphics Principle and Method of Design
- Colour Theory
- Typographic Design
- Design techniques
- Design: Character
- Editing and Filters
- Background & Concept
- Web page, Advertisement, Brochure, visiting card Design
- Digital Portfolio Development & Presentation

### **Students will learn-**

- Apply basic concepts to develop construction (drawing) techniques
- Ability to manipulate drawings through editing and plotting techniques
- Produce template drawings
- Understand and demonstrate dimensioning concepts and techniques
- Become familiar with the use of Blocks, Design Centre, and Tool Palettes
- Become familiar with Solid Modelling concepts and Design techniques.

# ADOBE ILLUSTRATOR

Adobe Illustrator is used by designers to create and edit vector graphics, which are images that are defined by mathematical equations rather than pixels. This allows the graphics to be scaled up or down without losing quality. Illustrator allows designers to embed all fonts, links, and design elements directly within the file. The Portable Document Format (PDF) preserves all of that data as a print-ready vector image,

## TOOLS AND THEIR FUNCTIONS

<b>Selection tool:</b> The most commonly used tool, which selects text and graphic frames and allows you to work with an object using its bounding box.
<b>Direct Selection tool:</b> Selects the contents of a frame, such as a placed graphic, allows you to work directly with edit able objects, such as paths, rectangles, or type that has been converted to a text outline.
<b>Group Selection tool:</b> Selects a group of points all at once, such as the four points of rectangle.
<b>Magic Wand tool:</b> Selects all objects in a document with the same or similar fill color, stroke weight, stroke color, opacity, or blending mode. By specifying the Color Range, or Tolerance, you can control what the Magic Wand tool selects.
<b>Lasso tool:</b> Selects objects, anchor points, or path segments by being dragged around all or part of the object.
<b>Pen tool:</b> Creates a line between two anchor points you make. Creates straight lines if you simply click and release to make anchor points.
<b>Add Anchor Point tool:</b> Adds a point to a path, which is a simple way to change any path. This helps to turn one shape into another.
<b>Delete Anchor Point tool:</b> Deletes points from a path without causing a break in the path.
<b>Convert Anchor Point tool:</b> Changes the control handles around an anchor point reshaping the segments controlled by that anchor point.
<b>Type tool:</b> Creates re sizable and moveable text frames in which you can type text.
<b>Type on a Path tool:</b> Used to type on an object's path.
<b>Line tool:</b> Creates straight lines.
<b>Ellipse tool:</b> Creates ellipse shapes that hold text.
<b>Rectangle tool:</b> Creates rectangle shapes that hold color or text.
<b>Polygon tool:</b> Creates polygon shapes that hold color or text.
<b>Paintbrush tool:</b> Draws a path and applies a brush stroke simultaneously.
<b>Pencil tool:</b> Draws open and closed paths as if you were drawing with a pencil on paper. It is most useful for fast sketching or creating a hand-drawn look.
<b>Smooth tool:</b> Removes excess angles from an existing path or a section of a path.
<b>Arc tool:</b> Creates a curved line segment or a closed, wedge-like shape.
<b>Spiral tool:</b> Creates a spiral-shaped object of a given radius and number of winds.

<b>Star tool:</b> Creates star-shaped objects with a given size and number of points.
<b>Erase tool:</b> Removes part of an existing path or stroke. You can use this tool on paths, but not on text.
<b>Rotate tool:</b> Changes orientation, or angle, of the object on the page.
<b>Reflect tool:</b> Flips the object across an invisible axis that you specify. You can copy while reflecting to create a mirror image of an object.
<b>Scale tool:</b> Scales a selected object by being dragged anywhere in the document window. Scales objects relative to their center points, or to any reference point you make anywhere in the document window.
<b>Shear tool:</b> Slants or skews an object along its horizontal axis, also rotates both of the object's axes.
<b>Reshape tool:</b> Selects one or more anchor points and sections of paths and then adjusts the selected points and paths globally.
<b>Warp tool:</b> Stretches objects as if they were made of clay. When you drag or pull portions of an object using this tool, the pulled areas attenuate.
<b>Twirl tool:</b> Creates swirling distortions of an object.
<b>Pucker tool:</b> Deflates an object by moving control points toward the cursor.
<b>Bloat tool:</b> Inflates an object by moving control points away from the cursor.
<b>Scallop tool:</b> Adds random, smooth, arc-shaped details to the outline of an object.
<b>Crystallize tool:</b> Adds random spike- and arc-shaped details to the outline of an object.
<b>Wrinkle tool:</b> Adds random arc and spike shaped details to the outline of an object.
<b>Free Transform tool:</b> Provides a way to perform any transformation, such as rotating and scaling.
<b>Symbol Spray tool:</b> Creates a set of symbol instances or increases more instances to an existing set.
<b>Symbol Shift tool:</b> Moves symbol instances around.
<b>Symbol Scrunch tool:</b> Pulls symbol instances together or apart. Use this tool to shape the density distribution of a symbol set.
<b>Symbol Size tool:</b> Increases or decreases the size of symbol instances in an existing symbol set.
<b>Symbol Spin tool:</b> Orients the symbol instances in a set. Symbol instances located near the cursor orient in the direction of the cursors movement.
<b>Symbol Stain tool:</b> Colorizes symbol instances changing the hue toward the tint color, while preserving the original luminosity.
<b>Symbol Screener tool:</b> Increases or decreases the transparency of the symbol instances in a set.
<b>Symbol Style tool:</b> Applies or removes a graphic style from a symbol instance.
<b>Column Graph tool:</b> Compares one or more sets of values by using rectangles whose lengths are proportional to the values.
<b>Bar Graph tool:</b> Is similar to a column graph, but positions the rectangles horizontally instead of vertically.
<b>Line Graph tool:</b> Uses points to represent one or more sets of values, with a different line joining the points in each set. This type of graph is often used to show the

trend of one or more subjects over a period of time.
<b>Area Graph tool:</b> Is similar to a line graph, but emphasizes totals as well as changes in values.
<b>Pie Graph tool:</b> Creates a circular graph whose wedges represent the relative percentages of the values compared.
<b>Radar Graph tool:</b> Compares sets of values at given points in time or in particular categories, and is displayed in a circular format.
<b>Gradient tool:</b> Changes the direction of a gradient, its beginning point and endpoint, and applies a gradient across multiple objects

Press ' [ ' to increase brush size, press ' ] ' to decrease brush size	Toggle brush size (with eraser tool active)
Press ' [ ' to increase brush size, press ' ] ' to decrease brush size	Toggle brush size (with eraser tool active)

## WINDOW MENU

The Window menu in Adobe Illustrator is a collection of panels, bars, and windows that you can use to create and manipulate your documents and files. You can access the Window menu by clicking on the Window option in the top menu bar of the Illustrator application. The Window menu contains options to open, close, and arrange panels, as well as to switch between different workspaces.

You can also toggle the Application Frame on or off from the Window menu. The Application Frame groups all the workspace elements in a single, integrated window that lets you treat the application as a single unit.

If you want to show or hide the menu bar in Illustrator, you can go to the Window menu and select Workspace. Then, click Show Menu Bar from the drop-down menu 3. Alternatively, you can use the keyboard shortcut CTRL+M to show the menu bar.

## INTRODUCTION

### 1. Interface Introduction to Adobe Illustrator

Topics covered

• The tool panels
• The control panel

- |                     |
|---------------------|
| • Workspace panels  |
| • The document area |

## **2. Panels & Workspaces in Adobe Illustrator**

Topics covered

- |                             |
|-----------------------------|
| • Panels review             |
| • How to create a workspace |

## **3. Artboards in Adobe Illustrator**

Topics covered

- |                      |
|----------------------|
| • The Artboard panel |
| • Artboard tool      |

## **4. Vector basics / Selection & Direct selection tools**

Topics covered

- |                             |
|-----------------------------|
| • Vector overview           |
| • The Selection tool        |
| • The Scale tool            |
| • The Rotate tool           |
| • Multiplying               |
| • The Direct selection tool |
| • Anchor points             |
| • Anchor handles            |

## **5. Fill & Stroke effects in Adobe Illustrator**

Topics covered

- |                         |
|-------------------------|
| • Stroke effects        |
| • Stroke align effects  |
| • Stroke corner effects |
| • Stroke dash effects   |
| • Arrowhead effects     |

## **6. Using Colour / Swatches /Pantone's / Gradients & more**

Topics covered

## 7. Creating shape vectors

Topics covered

- |                                |
|--------------------------------|
| • Rectangle shape tool         |
| • Deleting anchor points       |
| • Ellipse shape tool           |
| • Free transform tool          |
| • Star shape tool              |
| • Free transform tool          |
| • Polygon shape tool           |
| • Rounded rectangle shape tool |

## 8. Grouped vectors, Compounding vector shapes & Using the shape builder tool

Topics covered

- |                                 |
|---------------------------------|
| • Arranging objects             |
| • Grouping vectors              |
| • Compounding vectors           |
| • Cutting shapes out of vectors |

## 9. Drawing with the Pen tool /Brush tool / Pencil tool & more

Topics covered

- |                             |
|-----------------------------|
| • Pen tool                  |
| • Click & drag technique    |
| • Click & convert technique |
| • Pencil tool               |
| • Brush tool                |

## 10. Type tools in Adobe Illustrator

Topics covered

- |                     |
|---------------------|
| • Type tool         |
| • Type area box's   |
| • Type as outlines  |
| • Touch type tool   |
| • Vertical type     |
| • Area type tool    |
| Type on a path tool |
| Formatting the text |

## **11. Compounding vector shapes& strokes / Pathfinder Tool**

Topics covered

- |  |
|--|
| • How to compound vectors                |
| • Using a compounded vector as a stencil |

## **12. Colouring a vector drawing in Adobe Illustrator**

Topics covered

- |   |
|---|
| • Colouring poster design                   |
| • Colouring the design [solid and gradient] |

## ADOBE PHOTOSHOP

Adobe Photoshop is a powerful tool that offers advanced photo editing features such as crop, rotate, straighten, adjust light and color, remove unwanted objects, and edit raw photos. The software also provides a range of creative options such as generative AI features, adjustment presets, and fonts. Adobe Photoshop is widely used by professionals and enthusiasts in the world of digital photography.

Some definitions to get you started:

**psd**- A .psd file is the file format in which Photoshop saves documents by default. It is a multi-layer document that retains its full editing options when saved. In many cases you will export

**Layers**- Photoshop documents are composed of layers, which can basically be described as single transparent sheets which hold particular pieces of an image. These layers can contain images, text, and vector graphics, and can be rearranged and grouped according to user needs. Layers are controlled with the use of the Layers panel. Often, when you find yourself frustrated with Photoshop, it is because you are trying to perform operations on a layer that is not currently selected. Simply click on the name of a layer in order to designate it as the current layer.

Whenever you add text to an image in Photoshop, the text appears on a new layer. You can "Merge down" layers to consolidate them, and "flatten image" to force the entire contents of the image onto one layer.

**Selections**- Selections refer to regions in an image that will be affected by the various tools. A selection in Photoshop is similar to a selection that you highlight in a word processing application. Once you have selected an area, you can apply a tool to it, such as paintbrush, or perform an operation such as copy or crop. Selections can be any shape and size; the shape depends on which selection tool you are working with. Your selection will apply only to the current layer. If that layer is empty in the region selected, you will get an error message. When this happens, go to the layers pane and select the correct layer.

**Resolution-** Resolution refers to the number of pixels in a full size image. An image with hi resolution contains more information than an image with lo resolution, and therefore, one can always convert a hi-res image to a lo-res image. However, because information is lost in the conversion, the reverse is not true. If you were to increase the resolution of a lo-res image, the result would be fuzzy.

Screen resolution is close to 72 pixels per inch, so if you are working with graphics to be viewed only on screen, 72 should be fine. Depending on the printer you are using, you would want to increase this above 72 for graphics that will be printed. 300 is usually an acceptable resolution for images to be printed; 150 would be the lowest acceptable resolution for printing. Image Size: Resolution should not be confused with image size, which is also expressed in pixels. Image size deals with the actual number of pixels tall and wide an image is. For an idea of how the two differ, go to Image Size in the Image menu, and plug in different numbers for image size and resolution.

**Color mode-** Color mode refers to the types of colors you will be using in your image. CMYK and RGB are the most important of these modes to be familiar with.

- CMYK is the setting for images that will be printed to paper. The letters refer to the four channels of color used to create every color available: cyan, magenta, yellow, and black.
- RGB refers to the three channel color mode suitable for images to be viewed on the web:  
red , green, and blue.

## WINDOWS MENUS PANEL

Menus are probably the most familiar interface elements to a new Photoshop user. They contain all sorts of options, but since there are not as visible as panes or the toolbar, they are often only partially explored. I'll take time right now to go over the menus and give a brief description to orient you to each.

<b>File</b>	contains all of the stuff you'd expect it to, with a few extras including Import, which deals with scanning, and Save for Web, which allows you to export a web ready image from your Photoshop file.
<b>Edit</b>	is another familiar menu. In Photoshop, edit houses all of the expected options as well as Fill & Stroke, and other image altering functions.
<b>Image</b>	effect a whole image, for the most part. Here you'll find color adjustments, size adjustments, and any other changes you need to make globally when working with a Photoshop file.
<b>Layer</b>	is similar to the image menu, but it contains options that effect only current or selected layers. I'll explain layers a little later, but for now, just understand that an image in Photoshop consists of stacked transparent layers; options in the Layer menu affect these pieces of the image rather than the complete image.

<b>Select</b>	deals with selections you make. Selecting the specific parts of an image you'd like to alter is a difficult part of working in Photoshop. This menu gives you some options regarding selections, including the ability to save selections, reverse them, or add to them. Learning the options on the selection menu can really save you some time.
<b>Filter</b>	is probably what most people think about when they think about Photoshop. The filter menu allows you to apply filters to any part of your image. These filters include ways to change the texture of the image, with some potentially radical results.
<b>View</b>	menu is where you change the view settings. You can use this to show and display guidelines on the image, and to zoom in and out, among other things.
<b>Window</b>	allows you to toggle back and forth between hide and show for each interface element. This is the first place you should go if you lose track of a particular window while you're working.
<b>Help</b>	The help documentation isn't so helpful, but for some reason, this menu contains two nice features: resize image, and export transparent image, which I'll get to later.

<b>The options bar</b>	which is located directly underneath the menus, is a useful tool when working with the different Photoshop tools. As you can see right now, when the selection tool is in use, the options bar reflects the changes that can be made to how that specific tool operates. Here, you have selection options, and style options, which includes the ability to make the selection tool a specific size in pixels. When you switch tools, to the paintbrush tool for instance, these options change. When a tool in Photoshop isn't behaving as you expect it to, the options bar should be the first place you look to fix it.
------------------------	---

## PHOTOSHOP TOOLS AND THEIR FUNCTIONS

<b>Rectangular Marquee Tool (M)</b> - Use this tool to make selections on your image, in a rectangular shape. This changes the area of your image that is affected by other tools or actions to be within the defined shape.
Holding the [Shift] key while dragging your selection, restricts the shape to a perfect square.
Holding the [Alt] key while dragging sets the center of the rectangle to where your cursor started.
<b>Move Tool (V)</b> - Use this tool to, well, move things. Usually you use it to move a Layer around after it has been placed. Hold the [Shift] key to limit the movements to vertical/horizontal.
<b>Polygon Lasso Tool (L)</b> - Ok, this should be the Lasso Tool, but I use the Polygon Lasso a lot more often. Use this to draw selections in whatever shape you would like. To close the

selection, either click on the beginning point (you'll see the cursor change when you're on it), or just double-click. When holding the [Ctrl] key, you'll see the cursor change, and the next time you click, it will close your selection.

**Magic Wand Tool (W)**- Use this to select a color range. It will select the block of color, or transparency, based on wherever you click. In the Options Bar at the top, you can change the Tolerance to make your selections more/less precise.

**Crop Tool (C)**- The Crop Tool works similarly to the Rectangular Marquee tool (see above if you have no short-term memory). The difference is when you press the [Enter/Return] key, it crops your image to the size of the box. Any information that was on the outside of the box is now gone. Not permanently, you can still undo.

**Slice Tool (K)**- This is used mostly for building websites or splitting up one image into smaller ones when saving out. It's kind of an advanced tool, and since you're in here for the basics, we'll kind of skip over it. Kinda makes you mad I made you read all that for nothing, huh?

**Healing Brush Tool (J)**- This is a useful tool. Mildly advanced. You can use this tool to repair scratches and specs and stuff like that on images. It works like the Brush tool (see below). You choose your cursor size, then holding the [Alt] key, you select a nice/clean area of your image. Let go of the [Alt] key and paint over the bad area. It basically copies the info from the first area to the second, in the form of the Brush tool. Only, at the end, it averages the information, so it blends.

**Brush Tool (B)**- This is one of the first tools ever. It's what Photoshop is based off of. Well, not really, but it's basic. It paints one your image, in whatever color you have selected, and whatever size you have selected. There's a lot of options for it, but this is basic, so you don't get to learn them.

**Clone Stamp Tool (S)**- This is very similar to the Healing Brush Tool (see above). You use it the exact same way, except this tool doesn't blend at the end. It's a direct copy of the information from the first selected area to the second.

**History Brush Tool (H)**- This tool works just like the Brush Tool (see above) except the information that it paints with is from the original state of your image. If you go Window>History, you can see the History Palette. The History Brush tool paints with the information from whatever History state is selected.

**Eraser Tool (E)**- This is the anti-Brush tool. It works like an eraser (duh) and erases whatever information wherever you click and drag it. If you're on a Layer, it will erase the information transparent. If you are on the background layer, it erases with whatever secondary color you have selected.

**Gradient Tool (G)**- You can use this to make a gradiation of colors. Gradiation doesn't appear to be a word, but it makes sense anyway. It creates a blending of your foreground color and background color when you click and drag it. Like a gradient.

**Blur Tool (R)**- The Blur tool is cool. It makes things blurry. Click and drag to make things blurry. The more you click and drag, the blurrier things get.

**Dodge Tool (O)**- This tool isn't as crappy as the car brand. It's used to lighten whatever area you use it on. As long as it is not absolute black. Absolute black won't lighten.

**Path Selection Tool (A)**- You use this tool when working with paths. Since this is all about the basics, I won't go into details. It's related to the Pen Tool (see below) though.

**Horizontal Type Tool (T)**- It makes type. Or text. Or whatever you want to call it. You can click a single point and start typing right away. Or you can click and drag to make a

bounding box of where your text/type goes. There's a lot of options for the Type Tool. Just play around, it's straight-forward.

**Pen Tool (P)**- I mentioned this tool above. It's for creating paths, in which you would use the Path Selection Tool to select the path. Paths can be used in a few different ways, mostly to create clipping paths, or to create selections. You use the tool by clicking to add a point. If you click and drag, it will change the shape of your path, allowing you to bend and shape the path for accurate selections and such.

**Rectangle Tool (U)**- By default it draws a Shape Layer in the form of a rectangle. It fills the rectangle with whatever foreground color you have selected. It's complicated, don't hurt yourself with this one.

**Notes Tool (N)**- Like post-it notes, but digital. You can use this tool to add small little note boxes to your image. These are useful if you're very forgetful or if you're sharing your Photoshop file with someone else. I'm pretty sure it only works with .PSD files.

**Eyedropper Tool (I)**- This tool works by changing your foreground color to whatever color you click on. Holding the [Alt] key will change your background color.

**Hand Tool (T)**- You can really make short work of your job with the Hand Tool. It's for moving your entire image within a window. So if you're zoomed in and your image area is larger than the window, you can use the Hand Tool to navigate around your image. Just click and drag. You can get to this tool at any time when using any other tool by pressing and holding the [Spacebar].

**Zoom Tool (Z)**- Pretty obvious what this tool does. It allows you to zoom into your image. Don't be dumb, it doesn't actually change the size of your image. Hold the [Alt] key to zoom out. Holding the [Shift] key will zoom all of the windows you have open at the same time. Double-click on the Zoom Tool in the palette to go back to 100% view.

**Foreground Color**- These are your color boxes. Foreground (in the front) and Background (in the back). Click on either one to bring up the color select dialog box.

## DETAILED REPORT

### **Cultivation of medicinal plants: *Moringa***

**07/10/2023:** The initiative of Department of Botany, AKI's Poona College of Arts, Science and Commerce, "Project Moringa" was further pursued by transplanting saplings in soil.

Students and staff visited the land at Bopgaon with the seedlings that had grown successfully in seedling trays. Students, under the supervision of co-ordinator Dr. Aafreen A. Ahmed and Dr. Rafik Shaikh prepared beds and laid pipelines for drip irrigation. This was a tedious process, but students carried out work efficiently!

After a short break, students transplanted saplings in beds at adequate distance so that the plants establish well in soil in the coming days. With assistance of the locals, students could complete their work in time and make arrangements for drip irrigation.

In all, 16 students volunteered to work on field for cultivation of *Moringa* saplings on land.

**AKI's Poona College of Arts, Science & Commerce**  
**Report of Skill Development Course in Fashion Designing for the Students**  
**Academic year 2024-25**

**Introduction:**

The 8-month fashion designing course aimed to equip students with comprehensive skills and knowledge in various aspects of the fashion industry. Throughout the course, students delved into the intricacies of beautiful embroidery techniques, fashion illustration, garment designing, stitching, and understanding the cost of garments. The curriculum was carefully crafted to provide a holistic understanding of fashion design, enabling students to explore their creativity while honing practical skills essential for success in the field.

**Curriculum Overview:**

**Embroidery:** Students learned a variety of embroidery techniques, including hand embroidery, and embellishment methods. Through hands-on practice and guided instruction, they mastered the art of creating intricate and aesthetically pleasing designs, incorporating different stitches, patterns, and materials.

**Fashion Illustration:** The course covered the fundamentals of fashion illustration, teaching students how to accurately depict garments, figures, and fashion concepts through sketching and rendering. Emphasis is placed on developing a strong sense of proportion, anatomy, and design aesthetics, enabling students to effectively communicate their creative ideas visually.

**Garment Designing:** Students are introduced to the process of garment designing from conceptualization to realization. They learn how to translate their design ideas into functional and fashionable garments, considering factors such as fabric selection, silhouette, construction techniques, and garment embellishments. Practical exercises and design projects allowed students to apply their creativity and technical skills in developing unique and innovative designs.

**Stitching Techniques:** The course provides comprehensive training in garment construction and stitching techniques. Students acquired proficiency in sewing, pattern making, draping, and garment assembly, ensuring they were capable of bringing their design concepts to life with precision and craftsmanship. Hands-on sewing projects allowed students to refine their stitching skills under the guidance of an experienced instructor.

**Costing of Garments:** Understanding the cost of garments is crucial for success in the fashion industry. Students learned how to estimate the cost of production for various types of garments, considering factors such as materials, labor, overhead expenses, and profit margins. Practical exercises and case studies provided students with real-world insights into cost

analysis and pricing strategies, preparing them for the business aspects of fashion design.

**Student Progress and Achievements:**

Throughout the course, students demonstrated significant progress in their skills and understanding of fashion design concepts. They showcased their creativity and technical abilities through various projects, assignments, and practical assessments. Many students produced exceptional work, incorporating innovative design elements and demonstrating mastery of embroidery, illustration, garment construction, and costing principles.

**Conclusion:**

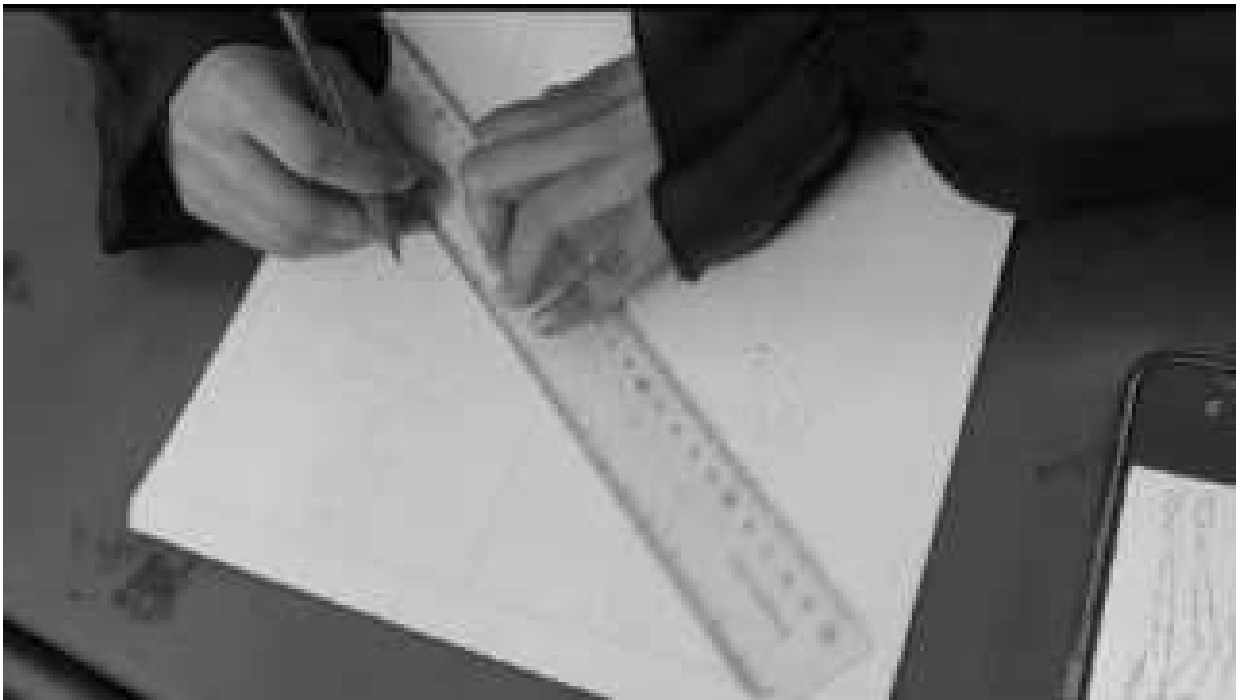

The 8-month fashion designing course provided students with a comprehensive foundation in various aspects of fashion design, including embroidery, illustration, garment designing, stitching, and costing. Through a combination of theoretical instruction and practical hands-on experience, students developed the skills and confidence necessary to pursue careers in the fashion industry. As they continue to refine their talents and expand their knowledge, these students are well-equipped to make valuable contributions to the world of fashion with their creativity, craftsmanship, and business acumen.

### **DETAILED REPORT**

The Certificate course “Soap, Detergents and Phenyl making” was conducted during 1<sup>st</sup> January to 31<sup>st</sup> Jan 2024 for the class T.Y.B.Sc. students. The Course is distributed in 16 theory lecture and 14 practicals. Total 18 students were registered for the course. The course covered an extensive range of topics related to soap, detergent and phenyl making. Key areas of focus included understanding the Chemistry of soaps and detergents, identifying raw materials and their properties, formulations and equipment, safety measures and quality control measures. They have prepared bathing soap (cake and liquid) detergent and good quality phenol. Students developed proficiency in handling raw materials and equipment safely while maintaining strict adherence to quality control measures. Apart from the technical skills students also enhanced their problem-solving abilities, teamwork and time management skills throughout the program. Students were honored by giving them certificates of successful completion of course by the department of chemistry.

**DEPARTMENT OF CHEMISTRY**  
(PG & Research Centre)

All the P. U. B. No. Students are hereby invited to register for the certificate course in  
Engg. Drawing and Photo etching. The course starts 15th April as compulsory for the  
completion of the semester. Schedule of commencement of theory and practical classes will  
be announced shortly. Certificate will be issued after the completion of course in all the  
registered students.

Course Duration	15 Weeks
Credits	03
Commencement of Course	15 April 2022 to 27 May 2022
Examination	16 April after the course completion
Result & Certificate	15 June 2022
Distribution	

Note: Complete list of Lectures and Dates to be shared soon.

## Report

The Certificate course "Soap, Detergents and Phenyl making" was conducted during 27<sup>th</sup> April to 27<sup>th</sup> May 2020 for the class F.I.B.Sc. and T.Y. B.Sc. students. The Course is distributed in 18 theory lecture and 14 practical. Total 30 students were registered for the course. The course covered an extensive range of topics related to soap, detergent and phenyl making. Key areas of focus included understanding the Chemistry of soaps and detergents, identifying raw materials and their properties, formulations and equipment, safety measures and quality control measures. They have prepared bathing soap, dish and laundry detergent and good quality phenyl. Students developed proficiency in handling raw materials and equipment safely while maintaining strict adherence to quality control measures. Apart from the technical skills students also enhanced their problem solving abilities, teamwork and time management skills throughout the program.

Students were honored by giving them certificates of successful completion of course by the department of chemistry.

**Educational Visit to a PDCC Bank**

Department of Economics, PG & Research Centre in collaboration with IQAC had organized an Educational Visit to “Pune District Central Co-operative Bank (PDCC), Camp Branch” today, 8th February, 2024.

Students of Economics, Commerce & B.Voc. (BFSI) visited to the Bank. Mr. Nitin Kanade, the Branch Manager, and Mr. Ravi Tiwari, the Assistant Manager, provided valuable insights to the students. They explained how to open a bank account, conduct cash withdrawals and deposits, apply for various types of loans, discussed the bank’s operations, and emphasized the importance of saving money. They also elaborated on function of their bank as a cooperative & role of cooperatives in banking system.

The students eagerly learnt these valuable lessons on financial literacy, money management, and the world of banking. It was indeed an enlightening session that allowed students to gain financial wisdom from seasoned professionals.

We extend our sincere gratitude to PDCC Bank officials, especially Mr. Nitin Kanade, for facilitating this exposure visit for the students of Poona College.

We all are highly thankful to Principal Professor (Dr.) Aftab Anwar Shaikh and Vice Principal, Mr. Moinuddin Khan, Vice Principal & IQAC coordinator Dr. Iqbal Shaikh for their cooperation.

Dr. Gulnawaz Usmani and Mr. Milind Patil coordinated this visit and about 27 students participated in this extension activity.

## ACTIVITY REPORT

**Academic Year: 2023-24**

BASIC DETAILS			
<b>Title of the Activity: Workshop and Hands-on “Applying Generative AI in Real World Scenarios: Opportunity &amp; Challenges”</b>			
Date	Faculty	Department/ Committee	Coordinator Name & Phone no.
13/02/2024	Computer Science	Computer Science	Ms. Shaheda Ansari
Time	Venue	Activity for Class/Group	Nature: Co-curricular/ Extra-curricular/Extension/Outreach
11:00am – 12:00pm	101	T.Y.BSc(CS)	Co-curricular

BRIEF INFORMATION OF THE ACTIVITY	
<b>Objectives</b>	Generative AI focuses on creating new and original content, chat responses, designs, synthetic data. It's particularly valuable in creative fields and for novel problem-solving, as it can autonomously generate many types of new outputs.
<b>Outcome</b>	The event provided a comprehensive overview of Generative AI, its evolution, impact, and future prospects, fostering knowledge exchange and collaboration in the field.
<b>No. of Participants</b>	99

## Workshop & Hands-on “Applying Generative AI in Real World Scenarios: Opportunity & Challenges”

The Department of Computer Science has organised a Workshop & Hands-on “Applying Generative AI in Real World Scenarios: Opportunity & Challenges” on 13<sup>th</sup> February 2024 for T.Y.BSc(CS) students, under the able guidance of Principal Dr. Aftab Anwar Shaikh, Vice-Principal Dr. Iqbal Shaikh, and Head of the Computer Science and BBA(CA) Dr. Shabana Shaikh, Co-ordinated by Ms. Shaheda Ansari.

Ms. Shaheda Ansari welcomed the attendees and introduced the guest speaker Zahir Shaikh, Manager for Generative AI R&D at T-Systems ICT India, leading the development and execution of innovative solutions in the realms of Generative AI and Advanced Automation. Mr. Zahr Shaikh is an experienced professional in the IT industry, specializing in advanced automation solutions, discussed the overflow of Generative AI and emphasized the importance of Python as the base for AI and Machine Learning.

The guest speaker elaborated on the application of Generative AI, highlighting its significance in data generation and its frameworks, particularly TensorFlow and PyTorch. The concept of Generative AI, rooted in deep learning, involves generating data from existing datasets. Evolution and impact of Generative AI were discussed, including its transformative effect on various industries, exemplified by seminal works like the "Attention is All You Need" paper and the Transformer model.

The limitations of traditional models like RNNs and LSTMs were addressed, leading to the emergence of Large Language Models (LLMs) such as LLAMA,

Camp, Pune – 411001 (Maharashtra)  
**(AFFILIATED TO SAVITRIBAI PHULE PUNE UNIVERSITY)**

Mistral, Zephyr and Gemini. Deployment strategies for LLMs were also discussed, including collaborative platforms.

The discussion further delved into the interface of Generative AI and highlighted tools, frameworks, and articles available, providing insights into market opportunities and potential use cases. The future prospects of Generative AI were explored, along with investment opportunities and key players in the field. Resource challenges and potential solutions were also deliberated upon.

The session concluded with an interactive Q&A, addressing queries related to Python, AI, data science, and Generative AI. Ms. Shaheda Ansari concluded the event with a vote of thanks, expressing gratitude to all participants and speakers for their valuable contributions.

Overall, the event provided a comprehensive overview of Generative AI, its evolution, impact, and future prospects, fostering knowledge exchange and collaboration in the field.

**Title:** Report on Workshop on IPR – Introduction and Importance in Start-up at  
Poona College of Arts, Science and Commerce, Camp, Pune

**Date:** Saturday, 24<sup>th</sup> February 2024

**Venue:** Conference Hall, Poona College

**No. of participants:** 62

The Department of BBA Computer Application, Poona College of Arts, Science, and Commerce organized a session titled "Intellectual Property Rights (IPR) Introduction and Importance in Start-Up" on February 24, 2024. This session aimed to equip students with a comprehensive understanding of IPR and underscore its significance within start-up ventures.

The distinguished guest speaker for the event was Dr. Shabib-Ahmed Shaikh, Ph.D., a Senior Technical Officer (IT) at CSIR Unit for Research & Development of Information Products (URDIP), NCL Campus, Pune, and an Honorary Assistant Professor at the Academy of Scientific and Innovative Research (AcSIR). Dr. Shabib-Ahmed Shaikh's expertise in information products and academia made him well-suited to lead discussions on IPR.

A total of 62 students from FY, SY, and TY BBA CA attended the session at the Conference Hall, demonstrating a keen interest in understanding the intersection of IPR with their potential roles in entrepreneurship and innovation.

Dr. Shabib-Ahmed Shaikh's delivered an exhaustive overview of IPR during the session, covering various facets including patents, trademarks, copyrights, licensing, and commercialization, tailored specifically to the context of startup ventures. He emphasized the importance of each aspect in safeguarding and monetizing innovations, augmenting his explanations with real-world examples and case studies to illustrate their practical implications within startup scenarios.

Throughout the session, Dr. Shabib-Ahmed Shaikh fostered an engaging environment by encouraging interactive discussions and Q&A sessions, allowing students to actively participate and gain clarity on various concepts related to IPR.

In recognition of his invaluable contribution to the session, the guest speaker, Dr. Shabib-Ahmed Shaikh, was felicitated by the Principal, Professor (Dr.) Aftab Anwar Shaikh, with a flower bouquet.

The Department of BBA Computer Application extends its heartfelt gratitude to Dr. Shabib-Ahmed Shaikh for his insightful and enriching session. Special acknowledgment is also extended to Mrs. Shabeena Khan for her role in anchoring and facilitating the program, and Dr. Imran Baig Mirza for his exceptional coordination with Mr. Faheemuddin Ahmed.

In conclusion, the session on Intellectual Property Rights (IPR) Introduction and Importance in Start-Up provided students with valuable insights and knowledge essential for navigating the entrepreneurial landscape. By understanding the significance of IPR, students are better equipped to protect their innovative ideas and contribute to the dynamic world of startups.

The Department of BBA Computer Application extends its gratitude to our esteemed Principal, Prof. (Dr.) Aftab Anwar Shaikh, Vice Principal Dr. Iqbal Shaikh, and Dr. Shabana Shaikh, Head of BBA (CA) & Computer Application Department, for their invaluable support and guidance in conducting such an enriching activity.

**Mrs. Shabeena Khan introducing the guest Dr. Shabib Shaikh**

**Principal Prof. Dr. Aftab Anwar Shaikh addressing the audience**

**Principal Dr. Aftab Anwar sir felicitating Dr. Shabib Shaikh**

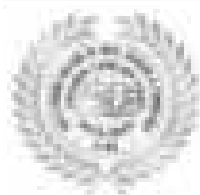

**Dr. Shabib Shaikh delivering his valuable insights on IPR**

**Principal Prof Dr. Aftab Anwar sir and Dr. Shabib Shaikh with BBA – CA & Computer Science Staff with Student Attendees**

## Department of Computer Science Startup Sparks Challenge

Department of Computer Science organized **The Startup Sparks Challenge**, held on February 25, 2024, at 11:00 AM in the Computer Science Department, was an engaging and dynamic event showcasing a variety of innovative startup ideas. The event provided students with an opportunity to present their entrepreneurial concepts through visually compelling posters, allowing them to garner feedback and network with peers and faculty members. Total 14 students participated and 11 posters of startup ideas are submitted by the students.

### Categories and Presented Ideas:

The ideas were categorized into two primary groups: Art and Craft, and Creative Services. Each category highlighted a diverse range of concepts, demonstrating the breadth of creativity and innovation among the participants.

#### 1. Art and Craft:

The Art and Craft category featured a total of seven unique ideas, reflecting a strong emphasis on creativity and artistic expression. The ideas presented were:

- **Black Pearl:** An initiative focusing on high-quality, handcrafted jewelry with an emphasis on unique designs and sustainable practices.
- **Shemaazee Arts:** A platform dedicated to promoting traditional art forms through exhibitions and workshops.
- **Rising Art Gallery:** A gallery concept aimed at providing emerging artists with a space to showcase their work and connect with art enthusiasts.
- **Canvas Painting:** A business idea centered around custom canvas painting services, offering personalized artwork for homes and businesses.
- **Glory in Arts:** A venture focused on creating and selling handcrafted art pieces with cultural significance.
- **Crafty Creations:** A project offering a range of handcrafted decorative items and gifts, emphasizing the use of recycled materials.
- **auralux:** An innovative concept that combines art with technology, creating interactive art installations that respond to sound and movement.

## 2. Creative Services:

The Creative Services category highlighted four distinct ideas, each aiming to address different aspects of marketing and service delivery:

- **Advertising Agency:** A startup focused on providing comprehensive advertising solutions, including digital marketing, brand strategy, and creative content development.
- **Shayari App:** An application designed to offer a platform for sharing and discovering Shayari (poetic expressions), with features for customization and social sharing.
- **Sneaker Defender Business Case:** A business idea centered around developing protective solutions for sneakers, catering to enthusiasts and collectors.
- **Beyond Celebrities: The Emergence of Influencers in Marketing:** A case study exploring the growing role of influencers in marketing strategies, providing insights into their impact and effectiveness.

### Conclusion:

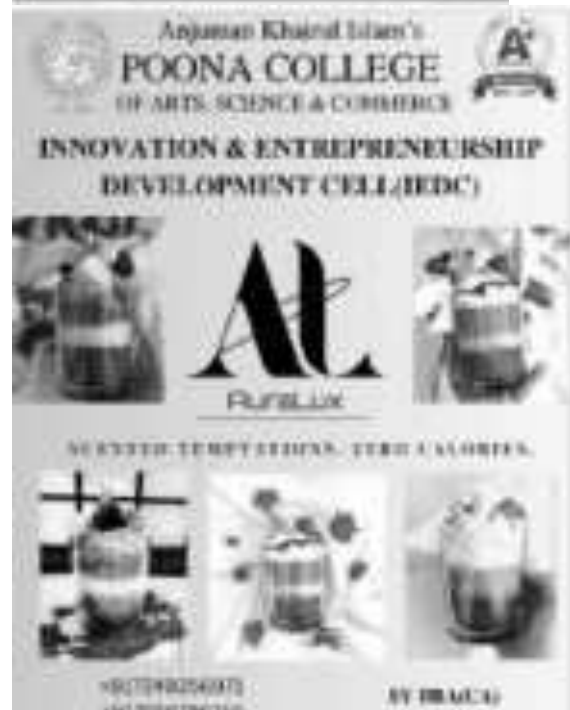

The Startup Sparks Challenge successfully provided a platform for students to showcase their innovative ideas and entrepreneurial spirit. The event not only celebrated the creativity of the participants but also fostered a collaborative environment for learning and growth. The variety of ideas presented under the Art and Craft and Creative Services categories underscored the depth of talent and imagination within the student community.

**Inauguration of Start Up**

**Cold Pressed 'Pure & Sure' Almond and Sesame Oil making of BBA Students  
5<sup>th</sup> March ,2024**

To enhance the entrepreneur capabilities of the students department of BBA in association with IEDC , IQAC and under the guidance of Principal Dr.Aftab Anwar Shaikh and IQAC Head Dr.Iqbal Shaikh have planned for training to students for their startup.In this connection Our Honorable General Secretary Hani Farid sir has inaugurated the start up of Almond oil and Seasmе oil manufacturing unit for BBA students on 5<sup>th</sup> March 2024 at college campus . Dr Hanif Lakdawala Trustee of AKI trust had graced the occasion. The project was coordinated by Dr. Deepika Kininge along with BBA students.

Startups are a critical part of the economy and the ecosystem of business. They are the source of new jobs, new products, and new services. They drive innovation and create wealth.Startups are important because they are the engine of economic growth. They are the source of new jobs, new products, and new services. They drive innovation and create wealth.Startups are riskier than established businesses, but they also have the potential to generate higher returns. That's why venture capitalists and other investors are willing to put money into startups.

Startups are important for a number of reasons. Firstly, they are often the source of new and innovative ideas. This is because startups are typically founded by people who are passionate about their idea and are willing to take risks to make it a reality. Secondly, startups play a key role in driving economic growth. They create new jobs and wealth, and they often bring new products and services to the market. Finally, startups are important for social progress. They can help to tackle societal problems and improve peoples lives.

To promote Start -Up skills in students and giving them guidance to start their own start up is main objective of this program.Poona College is always motivate students to build their career and successful career.To unfold managerial skills and entrepreneurship skills of students Poona College has taken this initiative for Oil Making Start ups.This start up will give students knowledge about Marketing practices,labeling and branding etc..

Inauguration of BBA Start up -Cold Oil Almond and Sesame making on 5th March, 2024

Inauguration of machinery brought for Cold Oil making Start Up of BBA students on 23<sup>rd</sup>  
June,2024

Startups offer invaluable learning experiences for business studies. Startups will provide our students with real-world, hands-on experience in entrepreneurship, allowing them to apply theoretical knowledge to practical situations. Department of BBA thankful to management for appreciating and supporting for this start-up.

## **REPORT ON TRADE FAIR DAY 2024**

**Date-6<sup>th</sup> March, 2024**

**Venue-Poona College Open Ground**

Trade Fair Day organized by Department of BBA along with Internal Quality assurance cell (IQAC) and Innovation and Entrepreneurship Development Centre (IEDC) held on 6<sup>th</sup> March 2024 at 10:00 am at open air auditorium Poona College to showcase an array of innovative products, services, and ideas from budding entrepreneurs. The event provided a platform for networking, collaboration, and learning opportunities for both participants and attendees. There were 48 stalls out of which 16 stalls was of BBA students and 30 students participated in ideabaj Competition 2024.

TYBBA students participated in Trade Fair 2024. The trade fair featured a diverse range of exhibitors from various industries, including food and beverage, fashion, Games sustainability, and more. This diversity added richness to the event and attracted a wide audience. The trade fair facilitated networking among entrepreneurs, investors, industry experts, and potential customers. Attendees could exchange ideas, seek mentorship, and explore potential collaborations, fostering a vibrant entrepreneurial ecosystem. Participating in entrepreneurship trade fairs serves as a practical learning experience for BBA students. They can observe different marketing strategies, sales techniques, and business models in action.

Inauguration of trade fair day was done by Mr Ajaz Sayed registrar of Mahatma Phule Krishi Vidayapeeth. Program Started with Tilawate e Quran by Mohammad Hakimuddin Mulla Student of SYBBA. Welcome address was given by Dr Deepika kinige. Introduction of the chief guest was given by Mr Aqueel Bajajwala .Dr Shabana Shaikh Head of Department BBA (CA) felicitated the chief guest Mr Ajaz Sayed.

Mr Ajaz Sayed address the gathering, inspire and motivate BBA students to pursue their entrepreneurial aspirations witnessing firsthand the journey from idea conception to business implementation instills confidence and ambition in students, encouraging them to think creatively and take calculated risks in their entrepreneurial endeavors.

Dr Heena Sayyed Proposed Vote of Thanks.

Compering of the Inaugural Program was done by Dr Heena Sayyed.

After the inaugural program chief Guest and Principal Sir along with BBA faculty members visited stalls and interacted with entrepreneurs.

Dr Shirrin Shaikh was Judge for the program she visited each and every stall and declared the three best Stalls

- 1) MS.Laxmi Ram-TYBBA (CA)
- 2) MS.Uzma Ayyub RoddeSYBSC(CS)
- 3) MS.Naba Shaikh TYBBA

The event was graced by the esteemed presence of RJ Bandyia renowned Radio Jockey as a guest of honor. Principal Dr Aftab Anwar Shaikh felicitated the guest The occasion was marked by enthusiasm and excitement as he played game with the students. Students and all participants enjoyed a lot.

Certificate distribution to all the participants, volunteers, students and winners was given by RJ Bandyia Guest of honor Principal Dr Aftab Anwar Shaikh ,and Vice Principal Dr Iqbal Shaikh.

The Entrepreneurship Trade Fair held at Anjuman khairul islam's Poona College organized by Department of BBA was a resounding success showcased a dynamic display of innovation and entrepreneurial spirit among students and participants. Hosted within the vibrant campus of the college, the event attracted a diverse range of exhibitors from various industries, reflecting the multifaceted nature of entrepreneurship. From innovative startups to sustainable fashion brands, the trade fair provided a platform for budding entrepreneurs to showcase their ventures and connect with a wider audience.

**ACTIVITY REPORT**  
**Academic Year: 2023-24**

**BIOFLOC FISH FARMING, TRAINING AND  
STARTUP CENTER**

*Report*

In December 2023, college trustee Dr. Hanif Lakdawala and Principal, Dr. Aftab Anwar Shaikh asked Zoology Department to start a Biofloc Fish farming unit as a dream project, Head Department of Zoology, Mujeeb Shaikh consulted some experts of biofloc fish farming and get the information of the dimensions of the biofloc fish tank and the equipment and materials required in it. First of all, structure of the biofloc fish tank was prepared and thereafter it was equipped with the required materials like Tarpolin, spider and blower and finally in February 2024 biofloc unit was started by inoculating *Tilapia* fish seed in it.

Inauguration of Biofloc Fish Farming, Training and Startup Center was done through the hand of General Secretary, Hon. Hani Ahmed Farid and Hon. Dr. Hanif Lakdawala. Dr. Mujeeb Shaikh, Head, Department of Zoology has given brief introduction about the functioning of Biofloc. Misbah Momin, student of M.Sc II Zoology elaborated about the necessary parameters that to be check at regular basis for the better survival of the fishes. During the Inauguration, Principal, Prof. (Dr.) Aftab Anwar Shaikh, Dr. Iqbal N. Shaikh (Vice Principal Science), Prof. Moinuddin Khan (Vice Principal Arts) and Staff members of Zoology Department were present.

After 5 months on 29<sup>th</sup> July 2024 first lot of fully grown (approximately 500 gm/) fish was harvested. The product was different from regular market *Tilapia* fish as it was reared using microbial biotechnology to increase the efficacy and utilization of fish feeds, where toxic materials, such as nitrogen components, were treated and converted to a useful product, like proteins. So that the nutrient value and the taste of our fishes were of high grade.

Camp, Pune

Subject: Requestion to Sanction Rs. 67,850/- for Establishing Biofloc (fish farming tank) in the college campus.

Respected Sir,

We are going to establish a Biofloc (fish farming tank) of 10000 litre capacity in our college campus. It will be utilized to provide training to students of B.Sc and M.Sc Zoology in fisheries and aquaculture, so that they will be able to complete their research projects in college campus itself.

Total estimated cost to establish Biofloc is Rs. 67,850/- (Sixty-seven thousand eight hundred fifty)

Kindly sanction Rs. Rs. 67,850/- for the above said purpose.

For reference Quotation for the same is attached herewith,

for  
26/12/2023

Dr. Mujeeb Shaikh  
Head, Department of Zoology

**Subject: Establishing Biofloc (Fish Farming Tank) in college campus – Request for Approval.**

Respected Sir,

I am pleased to inform you that the Zoology department of our college would like to establish a Biofloc (fish farming tank) of 10000 litre capacity in our college campus.

It will be beneficial for the students of undergraduate and postgraduate courses in learning of fisheries and aquaculture.

All the expenses will be borne by the Aided Accounts.

Expected expenditure for the same will be Rs. 67,850/-. We have called the quotation from the local vendor for material only. We are forwarding herewith the quotations of the same and request you to kindly approve the same and oblige.

Thanking you,

Yours faithfully,

12/17/24, 4:19 PM
