DETAILED REPORT

Production of saplings of medicinal plants: *Moringa*

28/08/2023: With an inclination of man towards herbal medicines, there is a need to cultivate medicinal plants and provide raw material for drug production. With this in mind and an objective to train students in cultivation practices of medicinal plants, the Department of Botany, AKI's Poona College of Arts, Science and Commerce initiated "Project Moringa".

The Department took an initiative to cultivate medicinal plants such as *Moringa*, on a piece of land at Bopgaon, donated by the Management for Skill Development among students of Botany. The co-ordinator Dr. Aafreen A. Ahmed briefed F.Y. and S.Y. B.Sc. students on the first step in cultivation practices of Moringa i.e. production of saplings. She explained the following steps and made students do it in person:

1. Preparation of potting mixture using compost and coco peat
2. Preparation of trays: filling trays with potting mixture
3. Sowing seeds: one seed per well sown by pressing it a few cms in potting mixture.
4. Irrigation: twice a week.

Students carried out these steps and successfully prepared 36 seedling trays!

After a month, the seeds germinated to well established saplings, ready to be transplanted in soil.

In all, 51 students volunteered to work in the production of *Moringa* saplings. This was possible under the able guidance of Principal Dr. Aftab Anwar Shaikh and Vice Principal (Science), Dr. Iqbal Shaikh and supervision of staff Dr. Aafreen Ahmed and Miss Nabila Shaikh.

Department of Botany

NOTICE

Date: 25/08/2023

An opportunity for experiential learning is being provided to students of F.Y. and S.Y. B.Sc (Botany) students through: **"Production of saplings of medicinal plants and their cultivation"**. Interested students should enroll their names with Dr. Aafreen A. Ahmed, Department of Botany, by 26th August, 2023.

Report on CAD (Computer Aided Design) Training Program

Department of Computer Science in association with Training and Placement cell and IQAC of Y & M AKI's Poona College of Arts, Science and Commerce, orchestrated a comprehensive 40-hour course on **CAD (Computer-Aided Design) Training Program** for the students of T.Y.BSc(CS). The program was organised under the able guidance of Principal Dr. Aftab Anwer Shaikh, Vice-Principle Dr. Iqbal Shaikh, Head of Computer Science and BBA(CA) Dr. Shabana Shaikh, coordinator of Placement Cell Miss. Zareen Sharif. Ms. Shaheda Ansari, Assistant Professor Department of Computer Science, led the coordination of the event.

Mr. Sujit Joshi was the resource person. Mr. Sujit Joshi has more than 25 years of experience in academics and CAD. The course garnered enthusiastic participation, with over 25 students enrolling. The first session took place on August 29th 2023, and the concluding session was scheduled for January 9th 2024. The resource person taught the two mostly used graphic design tools namely Adobe Illustrator and Adobe Photoshop.

The session was started with felicitation of the resource person Mr. Sujit Joshi by Dr. Shabana Shaikh. Ms. Shaheda Ansari delivered the welcome address and introduction of the resource person Mr. Sujit Joshi. The resource person started the session by introducing the softwares and later on explained the uses and importance of both the applications in the designing world. Expert explained in detail about the use of CAD and designing in different fields worldwide and career opportunities. The expert discussed Computer-aided design is one of the many tools used by engineers and designers and is used in many ways depending on the profession of the user and the type of software. The software which is used worldwide is Adobe Illustrator and

Adobe Photoshop. The expert helped the students in downloading both the software's in their respective system's and explained the detailed information about the software and its working.

He introduced Adobe illustrator to the students and also made them familiar with all the tools and techniques used in the application. He gave detailed notes of each tool

and displayed their working practically. The speaker created various designs using different shapes and symbols and also encouraged the students to try creating their own designs. The expert taught the students to work from scratch and create high definition vector images by using different tools. He also asked the students to select any one cartoon character and trace it exactly the same using pen tool, which is the most important tool used in designing. The students showed huge interest in tracing out the characters. The expert also practically showed the students how trace the character perfectly and also helped the students to resolve their queries. He also asked the students to select any gradient vector image and trace it using pen tool and fill the color using gradient and mesh tool. He further showed the students some shortcuts that can make the designing work easier and efficient. He also stated that this application is used in various ways for designing pamphlets, posters, cartoon characters etc.

After completion of the first application the expert started with Adobe Photoshop. He gave detailed notes of the tools and showed their use practically. The expert asked the students to make 3 collages using different techniques and tools available in Photoshop. The expert also gave the students some edited images and asked the students to recreate it. He also showed the students how to edit and enhance graphic images by using Adobe Photoshop. In the last session, the expert took the revision for both the applications. Later, the expert graciously invited and welcomed queries, fostering an open and interactive environment. The course proved to be highly informative, and all the students expressed their satisfaction in being a part of it.

Dr. Shabana Shaikh felicitate Mr. Sujit Joshi

GRAPHIC DESIGN COURSE SYLLABUS

- Computer Studies
- Generic Skills
- Basic Information about Software [Bitmap vs Vector]
- Introduction to Software [Tools and layers]
- Graphics Principle and Method of Design
- Colour Theory
- Typographic Design
- Design techniques
- Design: Character
- Editing and Filters
- Background & Concept
- Web page, Advertisement, Brochure, visiting card Design
- Digital Portfolio Development & Presentation

Students will learn-

- Apply basic concepts to develop construction (drawing) techniques
- Ability to manipulate drawings through editing and plotting techniques
- Produce template drawings
- Understand and demonstrate dimensioning concepts and techniques
- Become familiar with the use of Blocks, Design Centre, and Tool Palettes
- Become familiar with Solid Modelling concepts and Design techniques.

ADOBE ILLUSTRATOR

Adobe Illustrator is used by designers to create and edit vector graphics, which are images that are defined by mathematical equations rather than pixels. This allows the graphics to be scaled up or down without losing quality. Illustrator allows designers to embed all fonts, links, and design elements directly within the file. The Portable Document Format (PDF) preserves all of that data as a print-ready vector image,

TOOLS AND THEIR FUNCTIONS

Selection tool: The most commonly used tool, which selects text and graphic frames
and allows you to work with an object using its bounding box.
Direct Selection tool: Selects the contents of a frame, such as a placed graphic, allows you to
work directly with edit able objects, such as paths, rectangles, or type that
has been converted to a text outline.
Group Selection tool: Selects a group of points all at once, such as the four points of rectangle.
Magic Wand tool: Selects all objects in a document with the same or similar fill color, stroke
weight, stroke color, opacity, or blending mode. By specifying the Color
Range, or Tolerance, you can control what the Magic Wand tool selects.
Lasso tool: Selects objects, anchor points, or path segments by being dragged around
all or part of the object.
Pen tool: Creates a line between two anchor points you make. Creates straight
lines if you simply click and release to make anchor points.
Add Anchor Point tool: Adds a point to a path, which is a simple way to change any path. This
helps to turn one shape into another.
Delete Anchor Point tool: Deletes points from a path without causing a break in the path.
Convert Anchor Point tool: Changes the control handles around an anchor point reshaping the
segments controlled by that anchor point.
Type tool: Creates re sizable and moveable text frames in which you can type text.
Type on a Path tool: Used to type on an object's path.
Line tool: Creates straight lines.
Ellipse tool: Creates ellipse shapes that hold text.
Rectangle tool: Creates rectangle shapes that hold color or text.
Polygon tool: Creates polygon shapes that hold color or text.
Paintbrush tool: Draws a path and applies a brush stroke simultaneously.
Pencil tool: Draws open and closed paths as if you were drawing with a pencil on
paper. It is most useful for fast sketching or creating a hand-drawn look.
Smooth tool: Removes excess angles from an existing path or a section of a path.
Arc tool: Creates a curved line segment or a closed, wedge-like shape.
Spiral tool: Creates a spiral-shaped object of a given radius and number of winds.

Star tool: Creates star-shaped objects with a given size and number of points.
Erase tool: Removes part of an existing path or stroke. You can use this tool on paths,
but not on text.
Rotate tool: Changes orientation, or angle, of the object on the page.
Reflect tool: Flips the object across an invisible axis that you specify. You can copy
while reflecting to create a mirror image of an object.
Scale tool: Scales a selected object by being dragged anywhere in the document
window. Scales objects relative to their center points, or to any reference
point you make anywhere in the document window.
Shear tool: Slants or skews an object along its horizontal axis, also rotates both of the
object's axes.
Reshape tool: Selects one or more anchor points and sections of paths and then adjusts
the selected points and paths globally.
Warp tool: Stretches objects as if they were made of clay. When you drag or pull
portions of an object using this tool, the pulled areas attenuate.
Twirl tool: Creates swirling distortions of an object.
Pucker tool: Deflates an object by moving control points toward the cursor.
Bloat tool: Inflates an object by moving control points away from the cursor.
Scallop tool: Adds random, smooth, arc-shaped details to the outline of an object.
Crystallize tool: Adds random spike- and arc-shaped details to the outline of an object.
Wrinkle tool: Adds random arc and spike shaped details to the outline of an object.
Free Transform tool: Provides a way to perform any transformation, such as rotating and
scaling.
Symbol Spray tool: Creates a set of symbol instances or increases more instances to an
existing set.
Symbol Shift tool: Moves symbol instances around.
Symbol Scrunch tool: Pulls symbol instances together or apart. Use this tool to shape the
density distribution of a symbol set.
Symbol Size tool: Increases or decreases the size of symbol instances in an existing symbol
set.
Symbol Spin tool: Orients the symbol instances in a set. Symbol instances located near the
cursor orient in the direction of the cursors movement.
Symbol Stain tool: Colorizes symbol instances changing the hue toward the tint color, while
preserving the original luminosity.
Symbol Screener tool: Increases or decreases the transparency of the symbol instances in a set.
Symbol Style tool: Applies or removes a graphic style from a symbol instance.
Column Graph tool: Compares one or more sets of values by using rectangles whose lengths
are proportional to the values.
Bar Graph tool: Is similar to a column graph, but positions the rectangles horizontally
instead of vertically.
Line Graph tool: Uses points to represent one or more sets of values, with a different line
joining the points in each set. This type of graph is often used to show the

trend of one or more subjects over a period of time.
Area Graph tool: Is similar to a line graph, but emphasizes totals as well as changes in
values.
Pie Graph tool: Creates a circular graph whose wedges represent the relative percent□ages of the values compared.
Radar Graph tool: Compares sets of values at given points in time or in particular categories,
and is displayed in a circular format.
Gradient tool: Changes the direction of a gradient, its beginning point and endpoint, and
applies a gradient across multiple objects

WINDOW MENU

The Window menu in Adobe Illustrator is a collection of panels, bars, and windows that you can use to create and manipulate your documents and files. You can access the Window menu by clicking on the Window option in the top menu bar of the Illustrator application. The Window menu contains options to open, close, and arrange panels, as well as to switch between different workspaces.

You can also toggle the Application Frame on or off from the Window menu. The Application Frame groups all the workspace elements in a single, integrated window that lets you treat the application as a single unit.

If you want to show or hide the menu bar in Illustrator, you can go to the Window menu and select Workspace. Then, click Show Menu Bar from the drop-down menu 3. Alternatively, you can use the keyboard shortcut CTRL+M to show the menu bar.

INTRODUCTION

1. Interface Introduction to Adobe Illustrator

Topics covered

• The tool panels
• The control panel

• Workspace panels
• The document area

2. Panels & Workspaces in Adobe Illustrator

Topics covered

• Panels review
• How to create a workspace

3. Artboards in Adobe Illustrator

Topics covered

• The Artboard panel
• Artboard tool

4. Vector basics / Selection & Direct selection tools

Topics covered

• Vector overview
• The Selection tool
• The Scale tool
• The Rotate tool
• Multiplying
• The Direct selection tool
• Anchor points
• Anchor handles

5. Fill & Stroke effects in Adobe Illustrator

Topics covered

• Stroke effects
• Stroke align effects
• Stroke corner effects
• Stroke dash effects
• Arrowhead effects

6. Using Colour / Swatches /Pantone's / Gradients & more

Topics covered

• Swatches panel
• Picking colours from an image
• Gradient bar

• Transparency

7. Creating shape vectors

Topics covered

• Rectangle shape tool
• Deleting anchor points
• Ellipse shape tool
• Free transform tool
• Star shape tool
• Free transform tool
• Polygon shape tool
• Rounded rectangle shape tool

8. Grouped vectors, Compounding vector shapes & Using the shape builder tool

Topics covered

• Arranging objects
• Grouping vectors
• Compounding vectors
• Cutting shapes out of vectors

9. Drawing with the Pen tool /Brush tool / Pencil tool & more

Topics covered

• Pen tool
• Click & drag technique
• Click & convert technique
• Pencil tool
• Brush tool

10. Type tools in Adobe Illustrator

Topics covered

• Type tool
• Type area box’s
• Type as outlines
• Touch type tool
• Vertical type
• Area type tool
Type on a path tool
Formatting the text

11. Compounding vector shapes& strokes / Pathfinder Tool

Topics covered

• How to compound vectors
• Using a compounded vector as a stencil

12. Colouring a vector drawing in Adobe Illustrator

Topics covered

• Colouring poster design
• Colouring the design [solid and gradient]

ADOBE PHOTOSHOP

Adobe Photoshop is a powerful tool that offers advanced photo editing features such as crop, rotate, straighten, adjust light and color, remove unwanted objects, and edit raw photos. The software also provides a range of creative options such as generative AI features, adjustment presets, and fonts. Adobe Photoshop is widely used by professionals and enthusiasts in the world of digital photography.

Some definitions to get you started:

psd- A .psd file is the file format in which Photoshop saves documents by default. It is a multi- layer document that retains its full editing options when saved. In many cases you will export
Layers- Photoshop documents are composed of layers, which can basically be described as single transparent sheets which hold particular pieces of an image. These layers can contain images, text, and vector graphics, and can be rearranged and grouped according to user needs. Layers are controlled with the use of the Layers panel. Often, when you find yourself frustrated with Photoshop, it is because you are trying to perform operations on a layer that is not currently selected. Simply click on the name of a layer in order to designate it as the current layer. Whenever you add text to an image in Photoshop, the text appears on a new layer. You can "Merge down" layers to consolidate them, and "flatten image" to force the entire contents of the image onto one layer.
Selections- Selections refer to regions in an image that will be affected by the various tools. A selection in Photoshop is similar to a selection that you highlight in a word processing application. Once you have selected an area, you can apply a tool to it, such as paintbrush, or perform an operation such as copy or crop. Selections can be any shape and size; the shape depends on which selection tool you are working with. Your selection will apply only to the current layer. If that layer is empty in the region selected, you will get an error message. When this happens, go to the layers pane and select the correct layer.

Resolution- Resolution refers to the number of pixels in a full size image. An image with hi resolution contains more information than an image with lo resolution, and therefore, one can always convert a hi-res image to a lo-res image. However, because information is lost in the conversion, the reverse is not true. If you were to increase the resolution of a lo-res image, the result would be fuzzy. Screen resolution is close to 72 pixels per inch, so if you are working with graphics to be viewed only on screen, 72 should be fine. Depending on the printer you are using, you would want to increase this above 72 for graphics that will be printed. 300 is usually an acceptable resolution for images to be printed; 150 would be the lowest acceptable resolution for printing. Image Size: Resolution should not be confused with image size, which is also expressed in pixels. Image size deals with the actual number of pixels tall and wide an image is. For an idea of how the two differ, go to Image Size in the Image menu, and plug in different numbers for image size and resolution.
Color mode- Color mode refers to the types of colors you will be using in your image. CMYK and RGB are the most important of these modes to be familiar with. • CMYK is the setting for images that will be printed to paper. The letters refer to the four channels of color used to create every color available: cyan, magenta, yellow, and black. • RGB refers to the three channel color mode suitable for images to be viewed on the web: red , green, and blue.

WINDOWS MENUS PANEL

Menus are probably the most familiar interface elements to a new Photoshop user. They contain all sorts of options, but since there are not as visible as panes or the toolbar, they are often only partially explored. I'll take time right now to go over the menus and give a brief description to orient you to each.

File	contains all of the stuff you'd expect it to, with a few extras including Import, which deals with scanning, and Save for Web, which allows you to export a web ready image from your Photoshop file.
Edit	is another familiar menu. In Photoshop, edit houses all of the expected options as well as Fill & Stroke, and other image altering functions.
Image	effect a whole image, for the most part. Here you'll find color adjustments, size adjustments, and any other changes you need to make globally when working with a Photoshop file.
Layer	is similar to the image menu, but it contains options that effect only current or selected layers. I'll explain layers a little later, but for now, just understand that an image in Photoshop consists of stacked transparent layers; options in the Layer menu affect these pieces of the image rather than the complete image.

Select	deals with selections you make. Selecting the specific parts of an image you'd like to alter is a difficult part of working in Photoshop. This menu gives you some options regarding selections, including the ability to save selections, reverse them, or add to them. Learning the options on the selection menu can really save you some time.
Filter	is probably what most people think about when they think about Photoshop. The filter menu allows you to apply filters to any part of your image. These filters include ways to change the texture of the image, with some potentially radical results.
View	menu is where you change the view settings. You can use this to show and display guidelines on the image, and to zoom in and out, among other things.
Window	allows you to toggle back and forth between hide and show for each interface element. This is the first place you should go if you lose track of a particular window while you're working.
Help	The help documentation isn't so helpful, but for some reason, this menu contains two nice features: resize image, and export transparent image, which I'll get to later.

The options bar	which is located directly underneath the menus, is a useful tool when working with the different Photoshop tools. As you can see right now, when the selection tool is in use, the options bar reflects the changes that can be made to how that specific tool operates. Here, you have selection options, and style options, which includes the ability to make the selection tool a specific size in pixels. When you switch tools, to the paintbrush tool for instance, these options change. When a tool in Photoshop isn't behaving as you expect it to, the options bar should be the first place you look to fix it.

PHOTOSHOP TOOLS AND THEIR FUNCTIONS

Rectangular Marquee Tool (M)- Use this tool to make selections on your image, in a rectangular shape. This changes the area of your image that is affected by other tools or actions to be within the defined shape.
Holding the [Shift] key while dragging your selection, restricts the shape to a perfect square.
Holding the [Alt] key while dragging sets the center of the rectangle to where your cursor
started.
Move Tool (V)- Use this tool to, well, move things. Usually you use it to move a Layer around after it has been placed. Hold the [Shift] key to limit the movements to vertical/horizontal.
Polygon Lasso Tool (L)- Ok, this should be the Lasso Tool, but I use the Polygon Lasso a lot more often. Use this to draw selections in whatever shape you would like. To close the

selection, either click on the beginning point (you'll see the cursor change when you're on it), or just double-click. When holding the [Ctrl] key, you'll see the cursor change, and the next time you click, it will close your selection.
Magic Wand Tool (W)- Use this to select a color range. It will select the block of color, or transparency, based on wherever you click. In the Options Bar at the top, you can change the Tolerance to make your selections more/less precise.
Crop Tool (C)- The Crop Tool works similarly to the Rectangular Marquee tool (see above if you have no short- term memory). The difference is when you press the [Enter/Return] key, it crops your image to the size of the box. Any information that was on the outside of the box is now gone. Not permanently, you can still undo.
Slice Tool (K)- This is used mostly for building websites or splitting up one image into smaller ones when saving out. It's kind of an advanced tool, and since you're in here for the basics, we'll kind of skip over it. Kinda makes you mad I made you read all that for nothing, huh?
Healing Brush Tool (J)- This is a useful tool. Mildly advanced. You can use this tool to repair scratches and specs and stuff like that on images. It works like the Brush tool (see below). You choose your cursor size, then holding the [Alt] key, you select a nice/clean area of your image. Let go of the [Alt] key and paint over the bad area. It basically copies the info from the first area to the second, inthe form of the Brush tool. Only, at the end, it averages the information, so it blends.
Brush Tool (B)- This is one of the first tools ever. It's what Photoshop is based off of. Well, not really, but it's basic. It paints one your image, in whatever color you have selected, and whatever size you have selected. There's a lot of options for it, but this is basic, so you don't get to learn them.
Clone Stamp Tool (S)- This is very similar to the Healing Brush Tool (see above). You use it the exact same way, except this tool doesn't blend at the end. It's a direct copy of the information from the first selected area to the second.
History Brush Tool (H)- This tool works just like the Brush Tool (see above) except the information that it paints with is from the original state of your image. If you go Window>History, you can see the History Palette. The History Brush tool paints with the information from whatever History state is selected.
Eraser Tool (E)- This is the anti-Brush tool. It works like an eraser (duh) and erases whatever information wherever you click and drag it. If you're on a Layer, it will erase the information transparent. If you are on the background layer, it erases with whatever secondary color you have selected.
Gradient Tool (G)- You can use this to make a gradiation of colors. Gradiation doesn't appear to be a word, but it makes sense anyway. It creates a blending of your foreground color and background color when you click and drag it. Like a gradient.
Blur Tool (R)- The Blur tool is cool. It makes things blurry. Click and drag to make things blurry. The more you click and drag, the blurrier things get.
Dodge Tool (O)- This tool isn't as crappy as the car brand. It's used to lighten whatever area you use it on. As long as it is not absolute black. Absolute black won't lighten.
Path Selection Tool (A)- You use this tool when working with paths. Since this is all about the basics, I won't go into details. It's related to the Pen Tool (see below) though.
Horizontal Type Tool (T)- It makes type. Or text. Or whatever you want to call it. You can click a single point and start typing right away. Or you can click and drag to make a

bounding box of where your text/type goes. There's a lot of options for the Type Tool. Just play around, it's straight-forward.
Pen Tool (P)- I mentioned this tool above. It's for creating paths, in which you would use the Path Selection Tool to select the path. Paths can be used in a few different ways, mostly to create clipping paths, or to create selections. You use the tool by clicking to add a point. If you click and drag, it will change the shape of your path, allowing you to bend and shape the path for accurate selections and such.
Rectangle Tool (U)- By default it draws a Shape Layer in the form of a rectangle. It fills the rectangle with whatever foreground color you have selected. It's complicated, don't hurt yourself with this one.
Notes Tool (N)- Like post-it notes, but digital. You can use this tool to add small little note boxes to your image. These are useful if you're very forgetful or if you're sharing your Photoshop file with someone else. I'm pretty sure it only works with .PSD files.
Eyedropper Tool (I)- This tool works by changing your foreground color to whatever color you click on. Holding the [Alt] key will change your background color.
Hand Tool (T)- You can really make short work of your job with the Hand Tool. It's for moving your entire image within a window. So if you're zoomed in and your image area is larger than the window, you can use the Hand Tool to navigate around your image. Just click and drag. You can get to this tool at any time when using any other tool by pressing and holding the [Spacebar].
Zoom Tool (Z)- Pretty obvious what this tool does. It allows you to zoom into your image. Don't be dumb, it doesn't actually change the size of your image. Hold the [Alt] key to zoom out. Holding the [Shift] key will zoom all of the windows you have open at the same time. Double-click on the Zoom Tool in the palette to go back to 100% view.
Foreground Color- These are your color boxes. Foreground (in the front) and Background (in the back). Click on either one to bring up the color select dialog box.

ACTIVITY REPORT
Academic Year: 2023-24

BASIC DETAILS			
Title of the Activity: Cultivation of medicinal plants: *Moringa*			
Date	**Faculty**	**Department/ Committee**	**Coordinator Name & Phone no.**
07/10/2023	**Science**	**Botany**	**Dr. Aafreen A. Ahmed; 9766209786**
Time	**Venue**	**Activity for Class/Group**	**Nature: Co-curricular/Extra-curricular/Extension/Outreach**
8.30am to 4.30pm	**Bopgaon**	**F.Y. & S.Y. B.Sc.**	**Co-curricular**

BRIEF INFORMATION OF THE ACTIVITY	
Objectives	**To impart hands on training for cultivation of medicinal plants**
Outcome	**Students transplanted *Moringa* saplings in soil.**
No. of Participants	**16**

DOCUMENTS ATTACHED: *Note: Please attach original documents. Photocopy (Xerox) will not be accepted.*		
Detailed Report	**Geotagged Photos with Caption**	**Notice**/Brochure
Attendance	Letters if any (Invitation/Thanks)	Any other relevant Documents (Resource Person CV/Feedback)

DETAILED REPORT

Cultivation of medicinal plants: *Moringa*

07/10/2023: The initiative of Department of Botany, AKI's Poona College of Arts, Science and Commerce, "Project Moringa" was further pursued by transplanting saplings in soil.

Students and staff visited the land at Bopgaon with the seedlings that had grown successfully in seedling trays. Students, under the supervision of co-ordinator Dr. Aafreen A. Ahmed and Dr. Rafik Shaikh prepared beds and laid pipelines for drip irrigation. This was a tedious process, but students carried out work efficiently!

After a short break, students transplanted saplings in beds at adequate distance so that the plants establish well in soil in the coming days. With assistance of the locals, students could complete their work in time and make arrangements for drip irrigation.

In all, 16 students volunteered to work on field for cultivation of *Moringa* saplings on land.

AKI's Poona College of Arts, Science & Commerce
Report of Skill Development Course in Fashion Designing for the Students
Academic year 2024-25

Introduction:

The 8-month fashion designing course aimed to equip students with comprehensive skills and knowledge in various aspects of the fashion industry. Throughout the course, students delved into the intricacies of beautiful embroidery techniques, fashion illustration, garment designing, stitching, and understanding the cost of garments. The curriculum was carefully crafted to provide a holistic understanding of fashion design, enabling students to explore their creativity while honing practical skills essential for success in the field.

Curriculum Overview:
Embroidery: Students learned a variety of embroidery techniques, including hand embroidery, and embellishment methods. Through hands-on practice and guided instruction, they mastered the art of creating intricate and aesthetically pleasing designs, incorporating different stitches, patterns, and materials.

Fashion Illustration: The course covered the fundamentals of fashion illustration, teaching students how to accurately depict garments, figures, and fashion concepts through sketching and rendering. Emphasis is placed on developing a strong sense of proportion, anatomy, and design aesthetics, enabling students to effectively communicate their creative ideas visually.

Garment Designing: Students are introduced to the process of garment designing from conceptualization to realization. They learn how to translate their design ideas into functional and fashionable garments, considering factors such as fabric selection, silhouette, construction techniques, and garment embellishments. Practical exercises and design projects allowed students to apply their creativity and technical skills in developing unique and innovative designs.

Stitching Techniques: The course provides comprehensive training in garment construction and stitching techniques. Students acquired proficiency in sewing, pattern making, draping, and garment assembly, ensuring they were capable of bringing their design concepts to life with precision and craftsmanship. Hands-on sewing projects allowed students to refine their stitching skills under the guidance of an experienced instructor.

Costing of Garments: Understanding the cost of garments is crucial for success in the fashion industry. Students learned how to estimate the cost of production for various types of garments, considering factors such as materials, labor, overhead expenses, and profit margins. Practical exercises and case studies provided students with real-world insights into cost

analysis and pricing strategies, preparing them for the business aspects of fashion design.

Student Progress and Achievements:

Throughout the course, students demonstrated significant progress in their skills and understanding of fashion design concepts. They showcased their creativity and technical abilities through various projects, assignments, and practical assessments. Many students produced exceptional work, incorporating innovative design elements and demonstrating mastery of embroidery, illustration, garment construction, and costing principles.

Conclusion:

The 8-month fashion designing course provided students with a comprehensive foundation in various aspects of fashion design, including embroidery, illustration, garment designing, stitching, and costing. Through a combination of theoretical instruction and practical hands-on experience, students developed the skills and confidence necessary to pursue careers in the fashion industry. As they continue to refine their talents and expand their knowledge, these students are well-equipped to make valuable contributions to the world of fashion with their creativity, craftsmanship, and business acumen.

DETAILED REPORT

The Certificate course "Soap, Detergents and Phenyl making" was conducted during 1st January to 31st Jan 2024 for the class T.Y.B.Sc. students. The Course is distributed in 16 theory lecture and 14 practicals. Total 18 students were registered for the course. The course covered an extensive range of topics related to soap, detergent and phenyl making. Key areas of focus included understanding the Chemistry of soaps and detergents, identifying raw materials and their properties, formulations and equipment, safety measures and quality control measures. They have prepared bathing soap (cake and liquid) detergent and good quality phenol. Students developed proficiency in handling raw materials and equipment safely while maintaining strict adherence to quality control measures. Apart from the technical skills students also enhanced their problem-solving abilities, teamwork and time management skills throughout the program.

Students were honored by giving them certificates of successful completion of course by the department of chemistry.

Educational Visit to a PDCC Bank

Department of Economics, PG & Research Centre in collaboration with IQAC had organized an Educational Visit to "Pune District Central Co-operative Bank (PDCC), Camp Branch" today, 8th February, 2024.

Students of Economics, Commerce & B.Voc. (BFSI) visited to the Bank. Mr. Nitin Kanade, the Branch Manager, and Mr. Ravi Tiwari, the Assistant Manager, provided valuable insights to the students. They explained how to open a bank account, conduct cash withdrawals and deposits, apply for various types of loans, discussed the bank's operations, and emphasized the importance of saving money. They also elaborated on function of their bank as a cooperative & role of cooperatives in banking system.

The students eagerly learnt these valuable lessons on financial literacy, money management, and the world of banking. It was indeed an enlightening session that allowed students to gain financial wisdom from seasoned professionals.

We extend our sincere gratitude to PDCC Bank officials, especially Mr. Nitin Kanade, for facilitating this exposure visit for the students of Poona College.

We all are highly thankful to Principal Professor (Dr.) Aftab Anwar Shaikh and Vice Principal, Mr. Moinuddin Khan, Vice Principal & IQAC coordinator Dr. Iqbal Shaikh for their cooperation.

Dr. Gulnawaz Usmani and Mr. Milind Patil coordinated this visit and about 27 students participated in this extension activity.

Report

On

Educational Visit to Amigo Forex Pvt. Ltd.

Department of Economics, PG & Research Centre in collaboration with IQAC had organized an Educational Visit to "Amigo Forex, Camp" today, 9th February, 2024.

Students of Economics, Commerce & B.Voc. (BFSI) visited to the Amigo Forex Pvt. Ltd. Mr. Dhirendra Mishra, the Manager, and Mr. Gunjan Sathe, the Assistant Manager, provided valuable insights to the students. They explained how to Exchange currency, the concept of foreign exchange management act, process of applying for visa & education abroad, discussed the Foreign Exchange operations, and emphasized the importance of rate of exchange. They also elaborated on function of their firm as a foreign currency exchange.

The students eagerly learnt these valuable lessons on currency exchange, money management, and the world of forex. It was indeed an enlightening session that allowed students to gain financial wisdom from seasoned professionals. Students got to understand the concepts related to financial literacy as well.

We extend our sincere gratitude to Amigo Forex Pvt. Ltd. officials, especially Mr. Dhirendra Mishra, for facilitating this exposure visit for the students of Poona College.

We all are highly thankful to Principal Professor (Dr.) Aftab Anwar Shaikh and Vice Principal, Mr. Moinuddin Khan, Vice Principal & IQAC coordinator Dr. Iqbal Shaikh for their cooperation.

Dr. Gulnawaz Usmani and Mr. Milind Patil coordinated this visit and about 30 students participated in this extension activity.

NOTICE

Department of Computer Science

All the students of T.Y. B.Sc(CS) & T.Y. BBA(CA) are instructed to attend a Workshop and Hands-on Training on "**Applying Generative AI in Real World Scenarios: Opportunities and Challenges**" on Tuesday, **13/02/2024 at 11:00** am at Hall No. 102.

Instructions:

1) Students **must come to the college in DRESS CODE / FORMALS (Only) With I-Card.**
2) **Attendance is COMPULSORY.**

ACTIVITY REPORT

Academic Year: 2023-24

BASIC DETAILS			
Title of the Activity: Workshop and Hands-on "Applying Generative AI in Real World Scenarios: Opportunity & Challenges"			
Date	**Faculty**	**Department/ Committee**	**Coordinator Name & Phone no.**
13/02/2024	**Computer Science**	**Computer Science**	**Ms. Shaheda Ansari**
Time	**Venue**	**Activity for Class/Group**	**Nature: Co-curricular/ Extra-curricular/Extension/Outreach**
11:00am – 12:00pm	**101**	**T.Y.BSc(CS)**	**Co-curricular**

BRIEF INFORMATION OF THE ACTIVITY	
Objectives	Generative AI focuses on creating new and original content, chat responses, designs, synthetic data. It's particularly valuable in creative fields and for novel problem-solving, as it can autonomously generate many types of new outputs.
Outcome	The event provided a comprehensive overview of Generative AI, its evolution, impact, and future prospects, fostering knowledge exchange and collaboration in the field.
No. of Participants	**99**

Workshop & Hands-on "Applying Generative AI in Real World Scenarios: Opportunity & Challenges"

The Department of Computer Science has organised a Workshop & Hands-on **"Applying Generative AI in Real World Scenarios: Opportunity & Challenges"** on 13th February 2024 for T.Y.BSc(CS) students, under the able guidance of Principal Dr. Aftab Anwar Shaikh, Vice-Principal Dr. Iqbal Shaikh, and Head of the Computer Science and BBA(CA) Dr. Shabana Shaikh, Co-ordinated by Ms. Shaheda Ansari.

Ms. Shaheda Ansari welcomed the attendees and introduced the guest speaker Zahir Shaikh, Manager for Generative AI R&D at T-Systems ICT India, leading the development and execution of innovative solutions in the realms of Generative AI and Advanced Automation. Mr. Zahr Shaikh is an experienced professional in the IT industry, specializing in advanced automation solutions, discussed the overflow of Generative AI and emphasized the importance of Python as the base for AI and Machine Larning.

The guest speaker elaborated on the application of Generative AI, highlighting its significance in data generation and its frameworks, particularly TensorFlow and PyTorch. The concept of Generative AI, rooted in deep learning, involves generating data from existing datasets. Evolution and impact of Generative AI were discussed, including its transformative effect on various industries, exemplified by seminal works like the "Attention is All You Need" paper and the Transformer model.

The limitations of traditional models like RNNs and LSTMs were addressed, leading to the emergence of Large Language Models (LLMs) such as LLAMA,

Mistral, Zephyr and Gemini. Deployment strategies for LLMs were also discussed, including collaborative platforms.

The discussion further delved into the interface of Generative AI and highlighted tools, frameworks, and articles available, providing insights into market opportunities and potential use cases. The future prospects of Generative AI were explored, along with investment opportunities and key players in the field. Resource challenges and potential solutions were also deliberated upon.

The session concluded with an interactive Q&A, addressing queries related to Python, AI, data science, and Generative AI. Ms. Shaheda Ansari concluded the event with a vote of thanks, expressing gratitude to all participants and speakers for their valuable contributions.

Overall, the event provided a comprehensive overview of Generative AI, its evolution, impact, and future prospects, fostering knowledge exchange and collaboration in the field.

DEPARTMENT OF BBA-CA

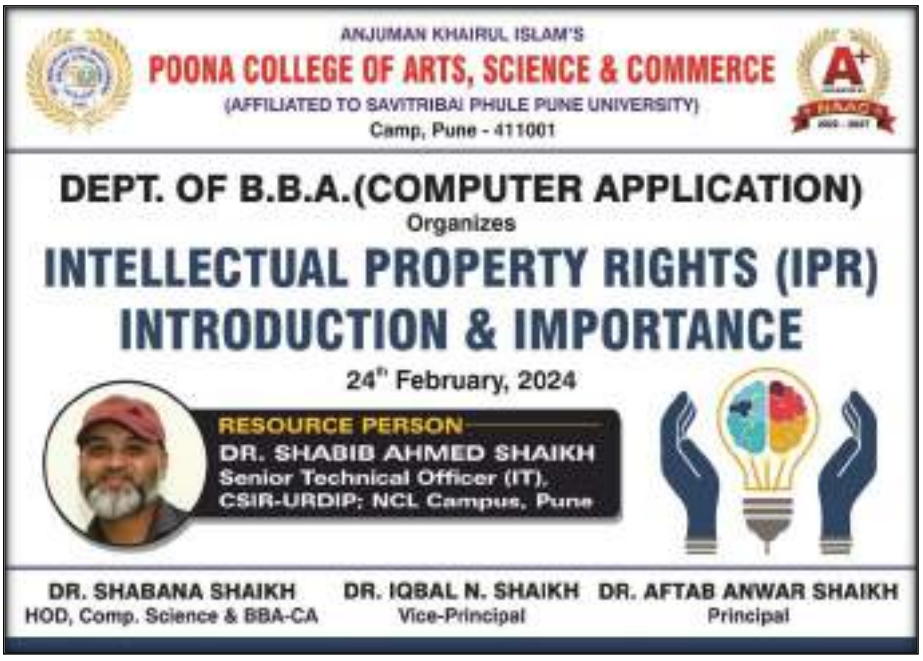
REPORT

ON

"WORKSHOP ON IPR – INTRODUCTION AND IMPORTANCE IN START-UP"

2023 – 24

SATURDAY, 24TH FEBRUARY 2024



Title: Report on Workshop on IPR – Introduction and Importance in Start-up at Poona College of Arts, Science and Commerce, Camp, Pune
Date: Saturday, 24th February 2024
Venue: Conference Hall, Poona College
No. of participants: 62

The Department of BBA Computer Application, Poona College of Arts, Science, and Commerce organized a session titled "Intellectual Property Rights (IPR) Introduction and Importance in Start-Up" on February 24, 2024. This session aimed to equip students with a comprehensive understanding of IPR and underscore its significance within start-up ventures.

The distinguished guest speaker for the event was Dr. Shabib-Ahmed Shaikh, Ph.D., a Senior Technical Officer (IT) at CSIR Unit for Research & Development of Information Products (URDIP), NCL Campus, Pune, and an Honorary Assistant Professor at the Academy of Scientific and Innovative Research (AcSIR). Dr. Shabib-Ahmed Shaikh's expertise in information products and academia made him well-suited to lead discussions on IPR.

A total of 62 students from FY, SY, and TY BBA CA attended the session at the Conference Hall, demonstrating a keen interest in understanding the intersection of IPR with their potential roles in entrepreneurship and innovation.

Dr. Shabib-Ahmed Shaikh's delivered an exhaustive overview of IPR during the session, covering various facets including patents, trademarks, copyrights, licensing, and commercialization, tailored specifically to the context of startup ventures. He emphasized the importance of each aspect in safeguarding and monetizing innovations, augmenting his explanations with real-world examples and case studies to illustrate their practical implications within startup scenarios.

Throughout the session, Dr. Shabib-Ahmed Shaikh fostered an engaging environment by encouraging interactive discussions and Q&A sessions, allowing students to actively participate and gain clarity on various concepts related to IPR.

In recognition of his invaluable contribution to the session, the guest speaker, Dr. Shabib-Ahmed Shaikh, was felicitated by the Principal, Professor (Dr.) Aftab Anwar Shaikh, with a flower bouquet.

The Department of BBA Computer Application extends its heartfelt gratitude to Dr. Shabib-Ahmed Shaikh for his insightful and enriching session. Special acknowledgment is also extended to Mrs. Shabeena Khan for her role in anchoring and facilitating the program, and Dr. Imran Baig Mirza for his exceptional coordination with Mr. Faheemuddin Ahmed.

In conclusion, the session on Intellectual Property Rights (IPR) Introduction and Importance in Start-Up provided students with valuable insights and knowledge essential for navigating the entrepreneurial landscape. By understanding the significance of IPR, students are better equipped to protect their innovative ideas and contribute to the dynamic world of startups.

The Department of BBA Computer Application extends its gratitude to our esteemed Principal, Prof. (Dr.) Aftab Anwar Shaikh, Vice Principal Dr. Iqbal Shaikh, and Dr. Shabana Shaikh, Head of BBA (CA) & Computer Application Department, for their invaluable support and guidance in conducting such an enriching activity.

Mrs. Shabeena Khan introducing the guest Dr. Shabib Shaikh

Sub: Permission to conduct Eight days 'BBA-CA Fest 2024'.

Respected Sir,

As mentioned in the above subject that Department of BBA - CA would like to organize Eight days **'BBA-CA Fest 2024'** from 24th February 2024 to 02nd March 2024 to motivate students to develop soft skills, Inter-personal skills, Logical Skill, Technical skill and to help in their overall development.

The events will be

Date	EVENT	Activities
24-02-2024 Day 1	Workshop on IPR- Introduction and Importance in Start-up	Introduction to Intellectual Property (IP), IPR and Start-up, Patents, Trademarks, Copyrights, Licensing and Commercialization
26-02-2024 Day 2	Soft skills Training & Placement activity for Internship	Orientation, Self-Awareness, Self Confidence and Goal Setting
27-02-2024 Day 3		Communication Skills, Active listening, Assertive Communication
28-02-2024 Day 4		Adaptability-Resilience, Stress Management
29-02-2024 Day 5		CV writing, Interview Preparation and Mock Interviews and Workplace Rights
01-03-2024 Day 6		Reliance and Growth Mindset, Healthy Relationship, Teamwork, Decision Making and Problem Solving
02-03-2024 Day 7		Mock Interviews and Placement Drive

Please grant us permission for conducting the same event.
Thanking You,

Permission granted
29/2/2024

Yours faithfully

Department of Computer Science

Startup Sparks Challenge

Department of Computer Science organized **The Startup Sparks Challenge**, held on February 25, 2024, at 11:00 AM in the Computer Science Department, was an engaging and dynamic event showcasing a variety of innovative startup ideas. The event provided students with an opportunity to present their entrepreneurial concepts through visually compelling posters, allowing them to garner feedback and network with peers and faculty members. Total 14 students participated and 11 posters of startup ideas are submitted by the students.

Categories and Presented Ideas:

The ideas were categorized into two primary groups: Art and Craft, and Creative Services. Each category highlighted a diverse range of concepts, demonstrating the breadth of creativity and innovation among the participants.

1. Art and Craft:

The Art and Craft category featured a total of seven unique ideas, reflecting a strong emphasis on creativity and artistic expression. The ideas presented were:

- **Black Pearl**: An initiative focusing on high-quality, handcrafted jewelry with an emphasis on unique designs and sustainable practices.
- **Shemauzee Arts**: A platform dedicated to promoting traditional art forms through exhibitions and workshops.
- **Rising Art Gallery**: A gallery concept aimed at providing emerging artists with a space to showcase their work and connect with art enthusiasts.
- **Canvas Painting**: A business idea centered around custom canvas painting services, offering personalized artwork for homes and businesses.
- **Glory in Arts**: A venture focused on creating and selling handcrafted art pieces with cultural significance.
- **Crafty Creations**: A project offering a range of handcrafted decorative items and gifts, emphasizing the use of recycled materials.
- **auralux**: An innovative concept that combines art with technology, creating interactive art installations that respond to sound and movement.

2. Creative Services:

The Creative Services category highlighted four distinct ideas, each aiming to address different aspects of marketing and service delivery:

- **Advertising Agency**: A startup focused on providing comprehensive advertising solutions, including digital marketing, brand strategy, and creative content development.
- **Shayari App**: An application designed to offer a platform for sharing and discovering Shayari (poetic expressions), with features for customization and social sharing.
- **Sneaker Defender Business Case**: A business idea centered around developing protective solutions for sneakers, catering to enthusiasts and collectors.
- **Beyond Celebrities: The Emergence of Influencers in Marketing**: A case study exploring the growing role of influencers in marketing strategies, providing insights into their impact and effectiveness.

Conclusion:

The Startup Sparks Challenge successfully provided a platform for students to showcase their innovative ideas and entrepreneurial spirit. The event not only celebrated the creativity of the participants but also fostered a collaborative environment for learning and growth. The variety of ideas presented under the Art and Craft and Creative Services categories underscored the depth of talent and imagination within the student community.

Inauguration of Start Up

Cold Pressed 'Pure & Sure' Almond and Sesame Oil making of BBA Students

5th March ,2024

To enhance the entrepreneur capabilities of the students department of BBA in association with IEDC , IQAC and under the guidance of Principal Dr.Aftab Anwar Shaikh and IQAC Head Dr.Iqbal Shaikh have planned for training to students for their startup.In this connection Our Honorable General Secretary Hani Farid sir has inaugurated the start up of Almond oil and Seasme oil manufacturing unit for BBA students on 5th March 2024 at college campus . Dr Hanif Lakdawala Trustee of AKI trust had graced the occasion. The project was coordinated by Dr. Deepika Kininge along with BBA students.

Startups are a critical part of the economy and the ecosystem of business. They are the source of new jobs, new products, and new services. They drive innovation and create wealth.Startups are important because they are the engine of economic growth. They are the source of new jobs, new products, and new services. They drive innovation and create wealth.Startups are riskier than established businesses, but they also have the potential to generate higher returns. That's why venture capitalists and other investors are willing to put money into startups.

Startups are important for a number of reasons. Firstly, they are often the source of new and innovative ideas. This is because startups are typically founded by people who are passionate about their idea and are willing to take risks to make it a reality. Secondly, startups play a key role in driving economic growth. They create new jobs and wealth, and they often bring new products and services to the market. Finally, startups are important for social progress. They can help to tackle societal problems and improve peoples lives.

To promote Start -Up skills in students and giving them guidance to start their own start up is main objective of this program.Poona College is always motivate students to build their career and successful career.To unfold managerial skills and entrepreneurship skills of students Poona College has taken this initiative for Oil Making Start ups.This start up will give students knowledge about Marketing practices,labeling and branding etc..

Inauguration of BBA Start up -Cold Oil Almond and Sesame making on 5th March, 2024

Inauguration of machinery brought for Cold Oil making Start Up of BBA students on 23rd June,2024

Startups offer invaluable learning experiences for business studies.Star tup will provide our students with real-world, hands-on experience in entrepreneurship, allowing them to apply theoretical knowledge to practical situations.Department of BBA thankful to management for appreciating and supporting for this start -up.

REPORT ON TRADE FAIR DAY 2024

Date-6th March, 2024

Venue-Poona College Open Ground

Trade Fair Day organized by Department of BBA along with Internal Quality assurance cell (IQAC) and Innovation and Entrepreneurship Development Centre (IEDC) held on 6th March 2024 at 10:00 am at open air auditorium Poona College to showcase an array of innovative products, services, and ideas from budding entrepreneurs. The event provided a platform for networking, collaboration, and learning opportunities for both participants and attendees. There were 48 stalls out of which 16 stalls was of BBA students and 30 students participated in ideabaj Competition 2024.

TYBBA students participated in Trade Fair 2024 The trade fair featured a diverse range of exhibitors from various industries, including food and beverage, fashion, Games sustainability, and more. This diversity added richness to the event and attracted a wide audience. The trade fair facilitated networking among entrepreneurs, investors, industry experts, and potential customers. Attendees could exchange ideas, seek mentorship, and explore potential collaborations, fostering a vibrant entrepreneurial ecosystem. Participating in entrepreneurship trade fairs serves as a practical learning experience for BBA students. They can observe different marketing strategies, sales techniques, and business models in action.

Inauguration of trade fair day was done by Mr Ajaz Sayed registrar of Mahatma Phule Krishi Vidayapeeth. Program Started with Tilawate e Quran by Mohammad Hakimuddin Mulla Student of SYBBA. Welcome address was given by Dr Deepika kininge. Introduction of the chief guest was given by Mr Aqueel Bajajwala .Dr Shabana Shaikh Head of Department BBA (CA) felicitated the chief guest Mr Ajaz Sayed.

Mr Ajaz Sayed address the gathering, inspire and motivate BBA students to pursue their entrepreneurial aspirations witnessing firsthand the journey from idea conception to business implementation instills confidence and ambition in students, encouraging them to think creatively and take calculated risks in their entrepreneurial endeavors.

Dr Heena Sayyed Proposed Vote of Thanks.

Compering of the Inaugural Program was done by Dr Heena Sayyed.

After the inaugural program chief Guest and Principal Sir along with BBA faculty members visited stalls and interacted with entrepreneurs.

Dr Shirrin Shaikh was Judge for the program she visited each and every stall and declared the three best Stalls

1) MS.Laxmi Ram-TYBBA (CA)
2) MS.Uzma Ayyub RoddeSYBSC(CS)
3) MS.Naba Shaikh TYBBA

The event was graced by the esteemed presence of RJ Bandya renowned Radio Jockey as a guest of honor. Principal Dr Aftab Anwar Shaikh felicitated the guest The occasion was marked by enthusiasm and excitement as he played game with the students. Students and all participants enjoyed a lot.

Certificate distribution to all the participants, volunteers, students and winners was given by RJ Bandya Guest of honor Principal Dr Aftab Anwar Shaikh ,and Vice Principal Dr Iqbal Shaikh.

The Entrepreneurship Trade Fair held at Anjuman khairul islam's Poona College organized by Department of BBA was a resounding success showcased a dynamic display of innovation and entrepreneurial spirit among students and participants. Hosted within the vibrant campus of the college, the event attracted a diverse range of exhibitors from various industries, reflecting the multifaceted nature of entrepreneurship. From innovative startups to sustainable fashion brands, the trade fair provided a platform for budding entrepreneurs to showcase their ventures and connect with a wider audience.

BEST PRACTICE 2

Impressive response to National Level Faculty Development Program (FDP) on 'AI-VFX assisted E-content Development' organized by Poona College of Arts, Science and Commerce, Pune.

A two day National level Faculty Development Program (FDP) on **'AI-VFX assisted E-content Development'** was organized by the Department of Library and Information Science and Internal Quality Assurance Cell (IQAC) in collaboration with Knowledge Bridge, Ahmednagar on 04th and 05th October 2023.

The FDP commenced with the recitation of sacred verses by **Dr. Ahmed Shamshad** followed by a formal welcome accorded by **A.Prof. Musharraf Hussain**. The theme of the FDP was presented by the Director of Knowledge Resource Centre, **Dr. Muhammad Zuber** who elaborated on the critical need and practice of transforming the teaching techniques using innovative technologies such as Artificial Intelligence (AI) and Visual Effects (VFX).

Principal Dr. Aftab Anwar Shaikh congratulated all the participants in their efforts to incorporate the latest innovative tools and motivated them to always remain upgraded. Thereafter **Vice-Principal Dr. Iqbal Shaikh** presented the guidelines emphasizing on the need from the quality point of view.

Setting up of a hybrid classroom in the real world situation was demonstrated by **Shri. Bhushan Kulkarni** during the first technical session during which he also demonstrated effective use of popular Artificial Intelligence (AI) tools to make attractive teaching plan with visual effects. Internationally renowned Cinematographer **Shri. Vikas Ingale** emphasized on the need of incorporating visual language into teaching communications.

The post-lunch technical session conducted by **Shri. Bhushan Kulkarni** dealt with various types of Lecture Capturing Systems (LCS), settings in OBS software for different studio setups, types of camera and their features, types of microphones and their features, use of Teleprompter and its benefits, lighting techniques and their needs.

The second day technical session got underway with a demonstration of the Understanding Mini VFX studio setup. The video production practical began during the technical session, and participants recorded their lectures which were conducted live in the studio setup. Before the session ended, more than fifty videos were captured.

Vice-Principal Prof. Moinuddin Khan presented the valedictory address during which all the participants were congratulated for making the FDP a grand success. He urged them to continue creating high-quality e-content for the students and later handed over the FDP certificates to the participants. The entire proceedings of the FDP were streamed live on YouTube watched by hundreds online. The FDP concluded with the FDP coordinator Dr. Muhammad Zuber proposing the institution's first digital vote of thanks.

About the College:

The Poona College of Arts Science and Commerce was founded in the year 1970 by the Yateemkhana and Madrasa, Anjuman Khairul Islam (Y & M AKI) Trust Mumbai, a philanthropic charitable trust dedicated to the noble cause of the orphans and downtrodden strata of the society and is affiliated to the Savitribai Phule Pune University. In a span of over 50 years, the College has expanded into a full-fledged degree college with P. G. centres in Electronics, Computer Science, Organic Chemistry, Zoology, English, Economics, Urdu and Commerce along with being a university-recognized M.Phil/Ph.D research centre in Commerce, Chemistry & Economics. Being accredited by NAAC with 'A' Grade in May 2004, the college was re-accredited in 2015 and thereafter awarded 'A+' Grade in November 2022. Being fully equipped with modern infrastructural facilities and top-class faculty members, the college's strength has exceeded 4500. The university results every year reflects the high degree of academic excellence attained by the students who are also proficient in co-curricular activities. The library has a rich collection of over 70000 books with subscription to reputed journals/periodicals and online databases.

About the FDP:

The teaching and learning process has transformed by the advent of Information and Communication Technology (ICT). Virtual/Online classrooms have become a digital replica of traditional classrooms where participants learn in real-time, face-to-face environment via internet-enabled devices. The UGC, AICTE and HRD Ministry have already undertaken significant steps in this direction by setting up portals such as SWAYAM, NPTEL and MOOC platforms under the National Mission on Education through ICT (NME-ICT) programme. In view of this, it has now become essential for teachers to acquire the necessary technical skills and adopt the use of ICT on a massive scale. Today, the teaching and learning process is facing many challenges and there is a need for technology-enhanced teaching, Artificial Intelligence (AI) and Visual Effects (VFX) and immersive technology can help overcome these challenges. Educators are exploring the AI-VFX based tools that will help them to teach subjects with more precision, prepare lesson plans, generate quick and accurate study material, and set questions with relevant answers including evaluation and assessment processes. The e-content created with the assistance of AI-VFX technology will definitely increase creativity, interactive simulations, improved learning outcomes, making it more appealing and engaging. Immersive learning is an educational approach that immerses students in a virtual or physical environment that simulates real-world scenarios. It is designed to help learners better understand and retain information by actively engaging them in learning.

FDP Highlights: Day-1

1. **Introduction to AI in Education:** Understand the fundamentals of AI and its applications for more effective teaching-learning outcomes.
2. **Use of Whiteboard Software:** Whiteboard software allows teachers to visually communicate ideas, concepts, and information. It's an effective way to convey complex topics using diagrams, charts, graphs, and illustrations, solve problems, and engage students through dynamic visuals, increasing understanding and retention.
3. **Preparation of Lesson Plans using AI:** AI-powered tools can automate many aspects of lesson planning, such as content research, resource gathering, and formatting. This saves a significant amount of time that can be redirected toward other important tasks.
4. **Technology-Enhanced Pedagogy:** Explore innovative pedagogical approaches that combine

traditional teaching methods with technology tools to engage students and promote deeper understanding. This involves interactive simulations, virtual reality, and gamified learning which offers a range of benefits to enhance the educational experiences of both, educators and students.

5. **Interactive Class to Lecture Capturing System (LCS):** Upgrading classroom to LCS setup is very advantageous. LCS converts the classroom lecture into an engaging video. Students can watch the recorded lecture multiple times, freeing up time for discussions, interactive activities, and practical applications. Lecture capturing can serve as a valuable tool for educators to review their own teaching methods, refine their presentations, and identify areas for improvement.
6. **Hands-on Practical on LCS setup:** Using just a Laptop and some tools, a teacher can convert his regular class to a LCS. Students prefer to watch videos filmed in live classrooms.

FDP Highlights: Day-2

1. **Use of Teleprompter:** Read on the teleprompter and the camera embedded inside will shoot without making anyone conscious. No stumbling! No fumbling! Look perfectly natural in front of the camera.
2. **Hands-on Training on Script Scrolling and Video Recording using Teleprompter:** Script on any subject can be easily prepared using AI Tools. We have to just put and scroll this script in any MS Word-like software and the video gets recorded simultaneously.
3. **Creating Interactive e-Content:** Learn to develop Chroma technology-based captivating e-content, incorporating multimedia elements and interactive features to enhance student engagement in online courses.
4. **Essential OBS Training:** Open Broadcaster Software (OBS) is a free and open-source software designed for video mixing, recording and live streaming. OBS allows users to record cameras and mix them with PPT and other audio-video sources in real-time, making it a popular choice for content creators, teachers, and anyone who wants to create high-quality videos or live streams.
5. **Adapting to Online Teaching:** Discover strategies for adapting classroom teaching techniques to the online environment while maintaining the same level of effectiveness.
6. **Case Studies and Best Practices:** Gain insights from successful AI-integrated classrooms and effective MOOC development.

Objectives of the FDP:

To familiarize the participants with;

- Improved teaching skills and benefits of technology-enhanced teaching.
- Techniques of developing E-content and fine-tuning them.
- AI and how it can be used to create more engaging and interactive e-content.
- VFX and how they can be used to create visually appealing and informative e-content.
- Teleprompters and how they can be used to deliver e-content more effectively.
- Use of immersive technology for real-time hybrid teaching.

Prerequisites from Participants:

Participants have to preferably get their own Laptop, subject related script, images and power point presentation (PPT).

Infrastructure Available at Venue:

- High speed Internet connection (100MBPS)
- Computer will be provided on demand if participant doesn't have laptop.
- Complete studio - It includes script laptop, talent screen, teleprompter with camera, speaker console, chroma curtain, studio lights and VFX mixer.

Medium of Instruction: English /Hindi / Marathi	**Conduct of FDP:** Hybrid mode
Seating Capacity: 100 seats for offline mode and 100 seats for online mode.	

Important Links:

- Venue GPS Location: https://goo.gl/maps/grAEdASr8fn
- Registration Link: https://forms.gle/Ms32ue1Tf1rFv9666

Registration Fee:

- Rupees 500/- (includes two days working lunch, morning and evening Tea, certificate, FDP kit). Further messages will be sent on WhatsApp or SMS after payment of registration fees.

.

Accommodation:

- Outstation participants have to arrange for their stay on their own. Assistance will be provided if requested.

Payment Mode:

- Online mode (RTGS/NEFT/IMPS/NETBANKING etc.)
- Name of Account : AKI Poona College Senior Aided Section
- Name of Bank : Union Bank of India
- Branch Name : Pune Cantonment Branch, Pune - 411001
- Account Type and Number : Current - 321701010037793
- IFSC Code : UBIN0532177

Last date for Registration and Payment: 02/10/ 2023

Note: Mere online registration does not confirm registration unless payment of registration fee is made. Reserve your seat as soon as possible. Please send the scanned/soft copy of the payment acknowledgement by email: librarian@poonacollege.edu.in Mobile No. 9423205210

NOTICE

All the teaching staff members are advised to prepare a Microsoft PowerPoint Presentation (PPT) and its script (lecture write-up) for their video which will be recorded during the upcoming FDP on "AI-VFX assisted E-Content Development" on 04th and 05th October 2023 on or before **Monday, 02nd October 2023** without fail. These should be sent by e-mail to librarian@poonacollege.edu.in

The PPT and Lecture write-up must subscribe to the following guidelines:

1. **Topic of Presentation:** Presenter's choice of his/her concerned subject.
2. **Target Video-time:** 05 to 10 minutes
3. **Max. No. of PPT Slides:** 10 to 15 with bulleted or numbered contents.
4. **Slide Animations:** to be in sync with the lecture readout content.

Script (Lecture Write-up) for read out during video recording

- **Type of File:** Microsoft Word (*.doc/*.docx), **Page:** A4 **Line spacing:** 1.5
- **Top/Bottom/Left/Right margins:** 1 inch **Font:** Times New Roman
- **Font size:** 14 pts. **Language:** English/Hindi/Marathi/Urdu
- **No. of pages:** As needed for readout in max. 10 minutes of video
- **End of paragraph** indicates a pause.

All are advised to practice reading out the script (lecture write-up) with proper voice modulation for recording an impressive video. The lecture reading out must be in sync with the item appearing in the PPT on each mouse click.

AI-VFX assisted E-Content Development

04th and 05th October 2023 | 9 a.m. to 5 p.m. | Poona College conference hall

Impressive response to National Level Faculty Development Program

(FDP) ON 'AI-VFX ASSISTED E-CONTENT DEVELOPMENT' ORGANISED BY POONA COLLEGE OF ARTS, SCIENCE AND COMMERCE, PUNE

TLV NEWS NETWORK

A two day National level Faculty Development Program (FDP) on 'AI-VFX assisted E-content Development' was organised by the Department of Library and Information Science and Internal Quality Assurance Cell (IQAC) in collaboration with Knowledge Bridge, Ahmednagar on 04th and 05th October 2023. The FDP commenced with the recitation of sacred verses by Dr. Ahmed Shamshad followed by a formal welcome accorded by A.Prof. Musharraf Hussain. The theme of the FDP was presented by the Director of the Knowledge Resource Centre, Dr. Muhammad Zuber who elaborated on the critical need and practice of transforming the teaching techniques using innovative technologies such as Artificial Intelligence (AI) and Visual Effects (VFX).

Principal Dr. Aftab Anwar Shaikh congratulated all the participants in their efforts to incorporate the latest innovative tools and motivated them to always remain upgraded. Thereafter Vice-Principal Dr. Iqbal Shaikh presented the guidelines emphasizing on the need from the quality point of view.

Setting up of a hybrid classroom in the real-world situation was demonstrated by Shri. Bhushan Kulkarni during the first technical session during which he also demonstrated effective use of popular Artificial Intelligence (AI) tools to make attractive teaching plans with visual effects—internationally renowned Cinematographer Shri. Vikas Ingale emphasized on the need to incorporate visual language into teaching communications.

- The second-day technical session got underway with a demonstration of the Understanding Mini VFX studio setup. The video production practical began during the technical session, and participants recorded their lectures which were conducted live in the studio setup. Before the session ended, more than fifty videos were captured.
- Vice-Principal Prof. Moinuddin Khan presented the valedictory address during which all the participants were congratulated for making the FDP a grand success. He urged them to continue creating high-quality e-content for the students and later handed over the FDP certificates to the participants. The entire proceedings of the FDP were streamed live on YouTube and watched by hundreds online. The FDP concluded with the FDP coordinator Dr. Muhammad Zuber proposing the institution's first digital vote of thanks.

- **The post-lunch technical session was conducted by Shri. Bhushan Kulkarni dealt with various types of Lecture Capturing Systems (LCS), settings in OBS software for different studio setups, types of camera and their features, types of microphones and their features, use of Teleprompter and its benefits, lighting techniques and their needs.**
