Dear Sir/Madam,

It gives us great pleasure to inform you that the Department of Computer Science (Post Graduate Center) & BBA-CA in association with Internal Quality Assurance Cell (IQAC) of our College is organizing a International Conference on “Innovations in Education: The Role of Artificial Intelligence in Shaping the Future of Learning” on 19th April 2025.

About the Conference:

This International Conference aims to explore the transformative role of Artificial Intelligence (AI) in shaping the future of education. With rapid advancements in AI technologies, education is evolving to integrate intelligent tools that enhance teaching methodologies, student engagement, and personalized learning experiences. AI is playing a pivotal role in reshaping how students learn and how educators teach in the digital age. As AI continues to transform educational practices, institutions and educators must adapt to these new technologies to maximize their benefits. The integration of AI offers numerous advantages, including enhanced engagement and improved learning outcomes. However, it also presents challenges such as the need for infrastructure upgrades, professional development for educators, and addressing concerns related to data privacy and algorithmic bias.

The conference will provide a platform for experts, researchers, and academicians to discuss AI's role in personalized learning, student engagement, and data-driven educational practices. Additionally, we will explore how institutions can overcome challenges like affordability, accessibility, and equity in implementing AI-powered education.

Themes of Conference:

Research papers are invited from industry professionals, practitioners, academicians, research scholars, consultants, faculty members, and students on the following sub-themes related to Artificial Intelligence (AI) and its impact on learning. The main theme of the International Conference is “**Innovations in Education: The Role of Artificial Intelligence in Shaping the Future of Learning.**” Papers are solicited from, but not limited to, the following sub-themes:
